DVD Contents

Demonstration of Tooth Carving

Contents

Chapter 1: Introduction 1
- Principles of Carving Technique 1
- Nomenclature 1
- The Crown and Root 2
- Surface 3
- Anatomical Landmarks of Tooth 3
- Line Angles and Point Angles 6
- Chronologies of Human Dentition 7

Chapter 2: Dental Formula and Tooth Numbering Systems 9
- Tooth Numbering Systems 9
- Zsigmondy/Palmer System 10

Chapter 3: The Permanent Incisors 12
- The Permanent Maxillary Central Incisor 13
- The Permanent Maxillary Lateral Incisor 24
- The Permanent Mandibular Central Incisor 31
- The Permanent Mandibular Lateral Incisor 37

Chapter 4: The Permanent Canines 43
- The Permanent Maxillary Canine 44
- The Permanent Mandibular Canine 52

Chapter 5: The Permanent Premolars 58
- The Permanent Maxillary First Premolar 59
- The Permanent Maxillary Second Premolar 71
- The Permanent Mandibular First Premolar 78
- The Permanent Mandibular Second Premolar 86

Chapter 6: The Permanent Molars 94
- The Permanent Maxillary First Molar 95
- The Permanent Maxillary Second Molar 114
- The Permanent Maxillary Third Molar 123
- The Permanent Mandibular First Molar 132
- The Permanent Mandibular Second Molar 143
- The Permanent Mandibular Third Molar 151

Chapter 7: Deciduous Teeth 158
- Morphology 158

Chapter 8: Differences Between Primary and Permanent Teeth 181
- Morphologic Differences 181

Chapter 9: Ground Section of Tooth: A Grinding Process 183
- Definition 183

Chapter 10: Tooth Traits 186
- Maxillary Incisors Type Traits and Other Characteristics 186
- Mandibular Incisors—Type Traits and Other Characteristics 187
- Maxillary and Mandibular Incisors—Arch Traits and Other Characteristics 188
- Canine—Arch Traits and Other Characteristics 188
- Maxillary Premolars—Type Traits and Other Characteristics 189
- Mandibular Premolars—Type Traits and Other Characteristics 190
- Premolars 191
- Maxillary Molars—Type Traits and Other Characteristics 192
- Mandibular Molars—Type Traits and Other Characteristics 193
- Mandibular Molars—Arch Traits and Other Characteristics 194

Chapter 11: Vasculature and Innervation of the Teeth 196
- Blood Supply: Introduction 196
- The Arterial Supply to the Maxillary Teeth 196
- The Arterial Supply to Mandibular Teeth 197
- Venous Drainage of Orodental Tissues 197
- Lymphatic Drainage of Orodental Tissues 198
- Innervation of Mandibular Teeth 198
- Innervation of Maxillary Teeth 199

Chapter 12: Occlusion 202
- Terminologies of Occlusion Commonly Used in Dentistry 202
- Various Concepts of Occlusion were Put Forward 203
- Primary Dentition 204
- Contact Relations 205

Chapter 13: Spotters in Dental Anatomy Practical 219
- Permanent Teeth 219
- Deciduous Teeth 224
- Identification of Dentition Casts 229

Index *237*
