DVD Contents

Chapter 3: Indications for Trabeculectomy and Tubes: Which to Choose, When and How?
- Pigs Eye Trabeculectomy

Chapter 5: New Surgical Techniques
- Hydrus
- Cy-Pass
- Xen

Chapter 7: Selective Laser Trabeculoplasty
- Selective Laser Trabeculoplasty

Chapter 8: Lasers in Angle Closure Glaucoma
- Laser Peripheral Iridotomy
- Pascal Laser Iridoplasty

Chapter 9: Transscleral Diode Cyclophotocoagulation
- Diode Laser Cyclophotocoagulation

Chapter 10: Endoscopic Cyclophotocoagulation
- Endoscopic Cyclophotocoagulation

Chapter 12: EX-PRESS Mini Glaucoma Shunt: Surgical Technique
- Express Shunt
- EX-PRESS Glaucoma Drainage Device Surgical Technique
- EX-PRESS Glaucoma Drainage Implant Removal

Chapter 13: Bleb Management
- Management of Late Bleb Complications of Trabeculectomy

Chapter 15: Releasable Suture Techniques
- Techniques for Releasable Sutures
- Releasable Suture

Chapter 16: Repeat Trabeculectomy
- Subconjunctival Injection of BSS to Facilitate its Dissection
- Dissection of Conjunctiva Adjacent to a Previous Trabeculectomy Site for Intended Repeat Trabeculectomy with Subsequent
  Opening of Previous Scleral Flap and Uveal Tissue Prolapse

Chapter 17: Combined Cataract and Glaucoma Surgery
- Ahmed Valve and Phaco Cataract Extraction
- Phaco and Canaloplasty with Glaucolight
- Combined Small Incision Cataract Surgery and Express

Chapter 18: Modulation of Wound Healing
- Modulation of Wound Healing

Chapter 19: Late Hypotony Post-Trabeculectomy
- Bleb Repair using Conjunctival Pedicle Flap
- Management of Postoperative Choroidal Detachment

Chapter 20: Nonpenetrating Deep Sclerectomy, Viscocanaloplasty and Ancillary Goniopuncture
- Deep Sclerectomy with Collagen Implant
- Discocanaloplasty

Chapter 21: Implants in Deep Sclerectomy
- Non Perforating Deep Sclerectomy

Chapter 22: Carbon Dioxide Laser-Assisted Deep Sclerectomy
- Co2 Laser Beam Assisted Sclerectomy

Chapter 25: Ahmed Glaucoma Valve
- Ahmed Value in Children

Chapter 26: Complications with the Ahmed Valve
- Ahmed Valve Bleb Fibrosis Removal Fornix Incision
- Anterior Bimanual Vitrectomy and Peripheral Iridectomy
- Anterior Vitectomy for An Occluded Tube
- Chroidal Drainage for Chronic Suprachoroidal Haemorraghe
- Expulsive Hemorraghe Drainage in PK
- Forced Tube Irrigation
- AGV Tube Repositioning

Chapter 27: Baerveldt Glaucoma Implant
- Baerveldt Glaucoma Implant

Chapter 29: Surgical Management for Childhood Glaucoma–Part 1
- Blocked Tube
- Transcameral Trimming of Tube
- Repair of Tube Related Conjunctival Exposure

Chapter 30: Surgical Management for Childhood Glaucoma–Part 2
- Intracameral Tying of Tube
- Transcameral Insertion of A 3/0 Supra Mid Suture

Chapter 31: Illuminated Microcatheter- Assisted Circumferential Trabeculotomy for Primary Congenital Glaucoma
- Illuminated Microcatheter Trabeculotomy
- Manual Trabeculotomy

Chapter 33: Goniosynechialysis
- Phacogoniosynechialysis

Chapter 35: Glaucomatous Complications of Refractive Surgery
- DS with Suprachoroidal Tflux

Chapter 36: Management of Glaucoma Post Vitreoretinal Surgery
- Ahmed Glaucoma Valve - Innovations in Wound Closure with
  Fibrin Glue
- Retracted Tube
- Tube Exposure

Chapter 37: Management of Neovascular Glaucoma
- Trabeculectomy Fornix Based

Chapter 39: Suprachoroidal Shunts
- Gold Shunt
- CyPass

Chapter 40: Biodegradable Collagen Implants In Trabeculectomy
- Ologen

Chapter 41: New Glaucoma Surgical Alternatives: Classification and Future Horizons
- Hydrus

Contents

Section 1: Preoperative Evaluation and Overview of Glaucoma Surgical Techniques

1. Preoperative Assessment of a Glaucoma Patient **3**

Sarwat Salim

- Patient Age and Life Expectancy 3
- General Health 4
- Anticoagulation Therapy 4
- Visual Acuity and Refractive Error 4
- Diagnosis 7

2. Intraocular Pressure Reduction Conundrum: Surgery or Drugs? **10**

Shibal Bhartiya, Monica Gandhi, Colin Clement, Parul Ichhpujani, Tarek M Shaarawy

- Ocular Adverse Effects and Complications 13

3. Indications for Trabeculectomy and Tubes: Which to Choose, When and How? **20**

Graham A Lee, Ivan Goldberg

- Trabeculectomy 20
- Ex-Press 27
- Tubes 27

4. Newer Glaucoma Surgical Procedures: How and When to Choose? **34**

Shibal Bhartiya, Parul Ichhpujani

- Introduction and Rationale 34
- Anatomical Basis 34
- Indications and Contraindications 37
- Complications 37
- Scientific Evidence So Far 38
- Ongoing Clinical Trials 40
- Current Positioning of These Procedures versus Gold Standard 40

5. New Surgical Techniques **42**

Marco Nardi, Francesco Nasini, Paolo Martinelli

- The Surgical Approach 42

6. Criteria for Surgical Success **48**

Shibal Bhartiya, Ivan Goldberg

- Types of Success 48
- Nonintraocular Pressure Criteria of Surgical Success 49

Section 2: Lasers in Glaucoma Surgery

7. Selective Laser Trabeculoplasty **53**

Laura Beltran-Agullo, Jason Cheng, K Sheng Lim

- Mechanism of Action 53
- Indications and Laser Efficacy 54
- Long-term Success 55
- Laser Protocol 55
- Repeated Selective Laser Trabeculoplasty 55
- Predictive Factors for Laser Success 56
- Complications 56
- Technique 56

8. Lasers in Angle Closure Glaucoma **60**

Chelvin CA Sng, Joel Aduan, Maria Cecilia Aquino, Paul TK Chew

- Introduction and Anatomical Basis 60
- Laser Peripheral Iridotomy 60
- Argon Laser Peripheral Iridoplasty 62

9. Transscleral Diode Cyclophotocoagulation **65**

Shibal Bhartiya, Parul Ichhpujani, Dewang Angmo

- Mechanism of Action 65
- Pearls and Pitfalls 68
- Complications 68

10. Endoscopic Cyclophotocoagulation **71**

Colin I Clement, Philip A Bloom

- Patient Selection 71
- Surgical Technique 71
- Operative Technique 72
- Postoperative Care 74
- Treatment Outcomes 74
- Combined with Cataract Surgery as A Primary Surgical Treatment 75
- Comparison to Transscleral Cyclophotocoagulation 76
- Comparison to Trabeculectomy 77
- Comparison to Tube-Shunt Surgery 77
- Complications 77

Section 3: Trabeculectomy: Technique and Rescue Operations

11. Trabeculectomy **83**

Peng T Khaw, Peter Shah, Freda Sii, Joseph Abbott

- Anesthesia 83
- Informed Consent 84
- Preoperative and Intraoperative Therapeutics 84
- Surgical Technique 85
- Postoperative Management 93
- Complications 96
- Postoperative Complications 98

12. Ex-PRESS™ Mini Glaucoma Shunt: Surgical Technique **104**
Jeffrey R SooHoo, Leonard K Seibold, Malik Y Kahook
- Anatomy 105
- Indications and Contraindications 105
- Surgical Steps 105
- Results 106
- Complications and Management 107
- Pearls and Pitfalls 107

13. Bleb Management **110**
Tom Edwards, Jonathan Goodfellow, Jonathan Crowston, Michael Coote
- Topical Steroid 110
- Bleb Massage/Releasable Suture Removal 111
- Bleb Needling and 5-Fluorouracil Injection 111
- Complications 112

14. Resurrecting the Failing Filtering Bleb **114**
Sung Chul Park, Robert Ritch
- Filtering Bleb Appearance and Function 114
- Risk Factors for Filtration Failure 116
- Signs of Filtration Failure 116
- Management of Filtration Failure 119
- Trephination 122

15. Releasable Sutures in Trabeculectomy **128**
Parul Ichhpujani, Shibal Bhartiya
- Mechanism of Action 128
- Techniques 128
- How to Use One or Two Releasable Sutures? 132
- When to Remove the Releasable Suture? 132
- How to Remove the Releasable Suture? 132
- What to Look for after Suture Release? 133
- Complications 133

16. Repeat Trabeculectomy **135**
Ahmed M Abdelrahman, Yasmine El Sayed
- Subsequent Management Options after Failure of the Initial Trabeculectomy 135
- Risks and Technical Considerations during Repeat Trabeculectomy 136
- Postoperative Treatment 138
- Outcomes of Repeat Trabeculectomy 139

17. Combined Cataract and Glaucoma Surgery **142**
Oscar Albis-Donado, Giovanna Casale-Vargas
- Preoperative Evaluation 143
- Indications 143
- Cataract Surgery 144
- Combined Trabeculectomy and Cataract Surgery 144

18. Modulation of Wound Healing **153**
Colin I Clement, Dilani Siriwardena, M Francesca Cordeiro
- Modulation of Wound Healing 153

19. Late Hypotony Post-Trabeculectomy **167**
Tanuj Dada, Dewang Angmo
- Risk Factors 167
- Etiology and Pathophysiology 169
- Pathophysiology 171
- Preventive Measures 171

Section 4: Nonpenetrating Glaucoma Surgery

20. Nonpenetrating Deep Sclerectomy, Viscocanaloplasty and Ancillary Goniopuncture **181**
Sangtam Tiakumzuk, Mermoud André
- Anatomical Basis 181
- Indications and Contraindications 182
- Surgical Steps 183
- Results 187
- Complications and Management 187
- Ancillary Goniopuncture 188

21. Implants in Deep Sclerectomy **190**
Oana Stirbu, Susana Duch Tuesta
- Introduction and Anatomical Basis 190
- Indications 192
- Contraindications 192
- Surgical Steps 192
- Postoperative Care 196
- Complications and Management 196
- Pearls and Pitfalls 197

22. Carbon Dioxide Laser-Assisted Deep Sclerectomy **198**
Amr Aref, Tarek M Shaarawy
- Anatomical Basis 199
- Surgical Steps 200
- Results 201
- Complications and Management 201
- Pearls and Pitfalls 201

23. Canaloplasty with Suture Stenting **203**
Matthias C Grieshaber
- Technique 203
- Patient Selection 205
- Intraoperative Testing of the Outflow System 206
- Clinical Results 207
- Conclusions and Outlook 207

24. Complications in Canaloplasty **209**

Gabor B Scharioth

- Typical Intraoperative Complications of Deep Sclerectomy 209
- Typical Intraoperative Complications of Canaloplasty 210
- Typical Postoperative Complications of Canaloplasty 213

Section 5: Glaucoma Drainage Devices

25. Ahmed Glaucoma Valve **217**

Kleyton Barella, Vital Paulino Costa

- Introduction and Anatomical Basis 217
- Indications 217
- Contraindications 219
- Surgical Steps 219
- Results 219
- Complications and Management 221

26. Complications with the Ahmed Valve **223**

Oscar Albis-Donado, Sonia Corredor-Casas, Rafael Castaneda-Diez

- Complications and Their Management 223
- Intraoperative Complications 223
- Early Postoperative Complications 228
- Perivalvular Fibrosis and the Hypertensive Phase 230
- Histopathology 231
- Other Late Postoperative Complications 232
- Strabismus and the Ahmed Valve 233

27. Baerveldt Glaucoma Implant **237**

Leonard K Seibold, Jeffrey R SooHoo, Malik Y Kahook

- Introduction and Anatomical Basis 237
- Indications 238
- Contraindications 238
- Surgical Steps 238
- Results 242
- Complications and Management 243
- Pearls and Pitfalls 244

28. Molteno Glaucoma Drainage Device **245**

Jonathan Goodfellow, Thomas Edwards, Jonathan Crowston, Michael Coote

- Indications 246
- Surgical Technique 246
- Complications: Prevention and Management 248

Section 6: Pediatric Glaucoma

29. Surgical Management for Childhood Glaucoma–Part 1 **253**
Velota CT Sung
- Angle Surgeries 253
- Filtering Surgeries 255
- Cyclodestructive Procedures 258

30. Surgical Management for Childhood Glaucoma–Part 2 **261**
Velota CT Sung
- Surgical Outcomes 261
- The Baerveldt Tube Implant with Mitomycin C and Donor Sclera Graft Procedure 262
- Management of Complications 264

31. Illuminated Microcatheter-Assisted Circumferential Trabeculotomy for Primary Congenital Glaucoma **269**
Tanuj Dada, Shikha Gupta
- Principle of Congenital Glaucoma Surgery 269
- Surgical Options for Congenital Glaucoma 269
- Newer Surgical Options 271
- Microcatheter-assisted Circumferential Trabeculotomy 271
- Surgical Technique 271
- Indications 273
- Contraindications 274
- Intraoperative Problems 274
- Postoperative Treatment 274
- Review of Literature 274
- Our Results 274
- Limitations and Advantages 276

Section 7: Special Situations

32. Lens in Angle-Closure Glaucoma **281**
Loon Seng Chee, Dawn Lim Ka-Ann, Anna Marie Tan Wee Tien, Joel Aduan, Paul Chew Tec Kuan
- Treatment of Primary Angle-closure and Primary Angle-closure Glaucoma 281
- Surgical Pearls 283
- Postoperative Management 286
- Complications 287

33. Goniosynechialysis **288**
Rahat Husain, Tin Aung
- Indications 288
- Contraindications 288
- Surgical Steps 289
- Results 289
- Complications and Management 290
- Pearls and Pitfalls 290

34. Postpenetrating Keratoplasty Glaucoma **292**
Murali Ariga, Praveena C, Malarkodi P, Nivean M, Srinivas K Rao
- Definition 292
- Incidence 292
- Clinical Features 293
- Mechanisms of Glaucoma Postpenetrating Keratoplasty 294
- Management 294
- Trabeculectomy 297

35. Glaucomatous Complications of Refractive Surgery **302**
Gonzalo Muñoz, Moza Dekhain, José I Belda Sanchís, Daniel Elíes
- Glaucoma Associated with Phakic Intraocular Lens Implantation 302
- Glaucoma after Laser-assisted in Situ Keratomileusis 306

36. Management of Glaucoma Post Vitreoretinal Surgery **309**
Rathini Lilian David, Lingam Vijaya, Janvi Shah
- Glaucoma after Scleral Buckling Procedures 309
- Glaucoma after Intravitreal Gas Injection 309
- Glaucoma after Silicone Oil Injection 310
- Indications for Trabeculectomy 311
- Indications for Glaucoma Drainage Devices 311
- Contraindications for Antiglaucoma Surgery 311
- Surgical Technique 311
- Results 312
- Complications and Management 315
- Pearls and Pitfalls 315

37. Management of Neovascular Glaucoma **316**
Syril Dorairaj, Michael W Stewart, Sribhargava Natesh, Christopher C Teng
- Introduction and Anatomical Basis 316
- Surgical Treatment to Reduce Intraocular Pressure 317
- Tube Shunts/Drainage Devices 318
- Laser Cyclophotocoagulation 320
- Results 320
- Complications 320
- Pearls and Pitfalls 322

38. Phacoemulsification in Eyes with Previous Glaucoma Filtering Surgery **324**
Tanuj Dada, Dewang Angmo, Shikha Gupta
- Preoperative Evaluation 325
- Intraoperative Measures 326
- Postoperative Considerations 328
- Outcomes of Phacoemulsification in Eyes with a Filtering Bleb 329
- Influence of Cataract Extraction on the Visual Fields 332
- Influence of Cataract Extraction on the Outcome of Hypotony Following Trabeculectomy 332

Section 8: New Microsurgical Devices in Glaucoma Surgery

39. Suprachoroidal Shunts **337**

Wanda D Hu, Marlene R Moster

- Anatomical Basis 337
- Indications and Contraindications 339
- Surgical Steps 339
- Results 342
- Complications and Management 343
- Pearls and Pitfalls 344

40. Biodegradable Collagen Implants in Trabeculectomy **346**

Tanuj Dada, Parul Ichhpujani, Dewang Angmo

- What is the Use of Collagen Implants in Filtering Surgery? 347
- Types of Collagen Implants 347
- Surgical Technique 347
- Surgical Steps 347
- Postoperative Care 349
- Scientific Evidence on the Use of Collagen Implants 350
- Complications 351

41. New Glaucoma Surgical Alternatives: Classification and Future Horizons **353**

Tarek M Shaarawy, MM Moschos, MB Sherwood

- Terminology 353
- Classification 353
- Results 359
- Miniaturized High-intensity Focused Ultrasound Device 363

Index *367*
