Preface		v
The MRCS examination		xi
Glossary		xii
Chapter 1	**Professional skills in clinical practice**	**1**
	Duties of a doctor	1
	Communication skills	1
	Clinical governance	2
	Ethics and the law	5
	Medical litigation	5
Chapter 2	**Perioperative care**	**7**
	Preoperative assessment	7
	Preparation for surgery	13
	Principles of anaesthesia	15
	Care of the patient under anaesthesia	20
	Haematological problems in surgery	22
Chapter 3	**Postoperative management and critical care**	**33**
	Autonomic nervous system	33
	Pain	34
	Metabolic and nutritional support	39
	Postoperative complications	43
	Principles of intensive care	46
Chapter 4	**Surgical technique and technology**	**55**
	Surgical wounds	55
	Surgical technique	57
	Surgical procedures	61
Chapter 5	**Evidence-based surgical practice**	**67**
	Evidence-based medicine	67
Chapter 6	**Surgical pathology and microbiology**	**73**
	Surgical pathology	73
	Surgical microbiology	74

Prevention of infection 83
Surgery in hepatitis and HIV carriers 84

Chapter 7 **Emergency medicine and the management of trauma** **87**

Pathophysiology of trauma 87
Initial assessment of the trauma patient 88
Traumatic wounds 92
Compartment syndromes 94
The eye – trauma and common infections 96

Chapter 8 **Principles of surgical oncology** **99**

Cell proliferation 99
Epidemiology of common cancer 100
NHS cancer screening programmes 101
Clinicopathological staging of cancer 102
Principles of cancer treatment 103

Chapter 9 **Cardiothoracic surgery** **109**

Applied basic sciences 109
Cardiac disease 116
Thoracic disease 123

Chapter 10 **General surgery** **133**

Abdominal trauma 133
Abdominal emergencies 135

Chapter 11 **The abdominal wall** **147**

Applied basic sciences 147
Abdominal hernias 149
Intestinal fistulas 153

Chapter 12 **Upper gastrointestinal surgery** **155**

Applied basic sciences 155
Oesophageal disease 159
Gastric disease 163

Chapter 13 **Hepatobiliary and pancreatic surgery** **169**

Applied basic sciences 169
Hepatobiliary and pancreatic disease 172

Chapter 14	**Colorectal surgery**	**189**
	Applied basic sciences	189
	Colorectal disease	191
	Perianal disease	201
Chapter 15	**Breast disease**	**207**
	Applied basic sciences	207
	Breast disease	207
Chapter 16	**Endocrine surgery**	**221**
	Applied basic sciences	221
	Thyroid and parathyroid disease	224
	Pituitary and adrenal disease	233
Chapter 17	**Vascular disease**	**239**
	Applied basic sciences	239
	Arterial disease	243
	Venous disease	254
	Lymphatics and spleen	260
	Renal failure and transplantation	264
Chapter 18	**Otorhinolaryngology and head and neck surgery**	**269**
	Applied basic sciences	269
	Ear, nose and throat disease	270
	Salivary gland disease	276
Chapter 19	**Paediatric surgery**	**281**
	Applied basic sciences	281
	Paediatric trauma	281
	Correctable congenital abnormalities	282
	Common paediatric surgical disorders	293
	Orthopaedic disorders of infancy and childhood	300
Chapter 20	**Plastic and reconstructive surgery**	**307**
	Applied basic sciences	307
	Plastic surgery trauma	309
	Pigmented skin lesions	315

Chapter 21 **Neurosurgery** **323**

Applied basic sciences 323
Neurosurgical trauma 325
Neurosurgical disorders 331

Chapter 22 **Trauma and orthopaedic surgery** **335**

Applied basic sciences 335
Skeletal fractures 344
Degenerative and rheumatoid arthritis 351
Infections of bones and joints 354
Disorders of the upper limb 357
Disorders of the hand 359
Knee injuries 362
Disorders of the foot 363
Osteoporosis 364
Metabolic bone disease 364
Locomotor pain 365
Bone tumours and amputations 368

Chapter 23 **Urology** **373**

Applied basic sciences 373
Urological trauma 377
Urinary tract infections and calculi 379
Haematuria 382
Urinary tract obstruction 385
Pain and swelling in the scrotum 388
Aspects of pelvic surgery 392

Index 397
