Contents

Chapter 1 **Femtosecond Laser Corneal Tissue Interaction** **1**
Antonio Fimia, M Gomariz
- *Interaction Processes in Materials with High Intensities 3*
- *Femtosecond Surgery 4*
- *Light-Tissue Interaction 4*
- *Future Directions 7*

Chapter 2 **Femtosecond Laser Technology for Ophthalmic Surgeons and Clinicians: Understanding a New Emerging Technology** **10**
Felipe Soria, Jorge L Alió
- *Basic Concepts: Creating Light Amplification Stimulated Emission Radiation 11*
- *Waves in Time and Space: Understanding Lasers in Ophthalmology 12*
- *Laser-matter Interaction 14*

Chapter 3 **Femtosecond Laser Corneal Graft Applications with IntraLase Technology** **18**
Juan Gabriel Ortíz, Jorge L Alió
- *IntraLase Femtosecond Laser Action on Corneal Tissue 18*
- *IntraLase Enabled Keratoplasty 20*
- *Surgical Protocol 24*
- *Ad-hoc Customization 27*

Chapter 4 **Therapeutic Procedures Using the VICTUS™ Femtosecond Laser Platform** **31**
Tobias Neuhann
- *Key Features of the VICTUS Femtosecond Laser Platform 32*
- *Interface 33*
- *Therapeutic Procedures 33*
- *Penetrating Keratoplasty 33*
- *Cut Design 34*
- *Variable Diameter 34*
- *Shape Design 35*
- *Cause for Keratoplasty 35*
- *Surgical Technique 35*
- *Visual Results 35*
- *Comparison of the Results with Published Data 35*
- *Deep Anterior Lamellar Grafts 37*
- *Endothelial Keratoplasty/Posterior Lamellar Grafts 37*
- *Additional Procedures Performed with the Technolas Femtosecond Laser 38*
- *Costs 38*

Chapter 5 **Femtosecond Laser Corneal Applications: WaveLight FS200** **40**
Georg Gerten, Uwe Oberheide
- *Technology Description 40*
- *Corneal Therapeutic Applications 41*

Chapter 6 **Femtosecond Laser-Assisted Superficial Lamellar Keratectomy for the Treatment of Superficial Corneal Leukomas** **44**
Jorge L Alió, Felipe Soria, Alfredo Vega
- *Preoperative Considerations 45*
- *Surgical Technique 46*
- *Outcomes 46*
- *Complications 48*

Chapter 7 **Artificial Anterior Chamber Systems Used for Femtosecond Laser Corneal Graft Surgery** **50**
Juan Álvarez de Toledo, Rafael I Barraquer-Compte, María F de la Paz
- *Description of Artificial Anterior Chambers Models 51*
- *How to Use an Artificial Anterior Chamber in Femstosecond Laser-Assisted Keratoplasty 55*
- *Complications 56*
- *Clinical Pearls in Using an Artificial Anterior Chamber for Femto-Keratoplasty 57*

Chapter 8 **Femtosecond Laser-Assisted Penetrating Keratoplasty with IntraLase Technology (Use of the Different Technologies, Surgical Practical Pearls, Outcomes)** **58**
Jorge L Alió, Felipe Soria, Alfredo Vega, Ahmed A Abdou
- *Femtosecond Laser-Assisted Penetrating Keratoplasty 59*
- *Surgical Procedure for Corneal Receptor 61*
- *Surgical Procedure for Corneal Donor in the Moria Artificial Anterior Chamber 66*

Chapter 9 **Femtosecond Laser-Assisted Anterior Lamellar Keratoplasty (FLALK) with IntraLase Technology (Use of the Different Technologies, Surgical Practical Pearls, Outcomes)** **75**
Jorge L Alió, Alfredo Vega, Felipe Soria, Ahmed A Abdou
- *Femtosecond Laser-Assisted Deep Anterior Lamellar Keratoplasty 76*
- *Ophthalmological Examination 76*
- *Surgical Procedure for Corneal Receptor 77*
- *Surgical Procedure for Corneal Donor with the Moria's Artificial Anterior Chamber 80*
- *Overview of Outcomes Reported in Femtosecond Assisted DALK 84*

Chapter 10 **Femtosecond Laser-Assisted Penetrating Keratoplasty (FLAPK) with WaveLight FS-200 Technology (Use of the Different Technologies, Surgical Practical Pearls, Outcomes)** **87**
Georg Gerten
- *Post-keratoplasty Astigmatism is still an Issue 88*
- *Reducing Potential Complications 89*
- *Standard Procedure 90*
- *Suture Technique Remains Important 95*

Chapter 11 **Femtosecond Laser-Assisted Endothelial Lamellar Keratoplasty: Optimizing Endothelial Graft Preparation: Laser Setting and Results** **98**
Jean-Louis Bourges
- *Cutting Profiles 98*
- *Preparation from Endothelial Side 99*
- *Laser Settings and Optimization 99*
- *Clinical Results 101*

Index *105*
