Contents

Foreword, by Professor Narsing Rao v

Foreword to first edition, by Mr JJ Kanski vi

Preface vii

Preface to first edition viii

Note on introductory boxes xii

List of abbreviations xiii

Chapter 1
The anatomy and immunology of uveitis 1

Chapter 2
History, examination and ophthalmic imaging 15

Chapter 3
Investigations in uveitis 55

Chapter 4
Diagnosing uveitis 67

Chapter 5
Principles of uveitis management 75

Chapter 6
Anti-inflammatory and immunosuppressive treatment 81

Chapter 7
Complications of uveitis and their management 103

Chapter 8
Uveitis associated with HLA-B27, arthritis and inflammatory bowel disease 129

Chapter 9
Fuchs' heterochromic uveitis and other anterior uveitis syndromes 145

Chapter 10
Bacterial infection 155

Chapter 11
Viral infection 181

Chapter 12
Fungal infection 211

Chapter 13
Protozoal infection 225

Chapter 14
Parasite infestations and toxic uveitis 241

Chapter 15
Intermediate uveitis and idiopathic chronic vitritis 259

Chapter 16
Sarcoidosis and granulomatous diseases 267

Chapter 17
Sympathetic uveitis and Vogt–Koyanagi–Harada syndrome 281

Chapter 18
Vasculitis 293

Chapter 19
Multifocal or zonal retinochoroiditis 315

Chapter 20
Masquerade syndromes 337

Chapter 21
Cases from the Manchester Uveitis Clinic 349

Index 371
