Treatment index 144

Topical treatments

1 Acne and rosacea treatments 2
2 Anti-actinic therapies 4
3 Antibiotics for cutaneous infections 6
4 Antifungal agents 8
5 Antiperspirants 10
6 Antiseptics 12
7 Antivirals: acyclovir and penciclovir 14
8 Calcineurin inhibitors 16
9 Corticosteroids 18
10 Depigmenting agents 22
11 Depilatory treatments 24
12 Dithranol 26
13 Emollients 28
14 Imiquimod 30
15 Keratolytics 32
16 Minoxidil 34
17 Retinoids 36
18 Scabicides 38
19 Sensitizing agents (diphencyprone) 40
20 Sunscreens 42
21 Tars 44
22 Vitamin D analogs 46

Systemic therapies

23 Acitretin 50
24 Alitretinoin 52
25 Anti-androgens 54
26 Antibiotics for acne 56
27 Antibiotics for skin infections 58
28 Antifungal agents 62
29 Antihistamines, sodium cromoglicate, and leukotriene receptor antagonists 64
30 Antimalarials 68
31 Antiparasitic agents 70
32 Antiviral agents 72
33 Azathioprine 74
34 Biologic therapy: for psoriasis 76
35 Biologic therapy: for melanoma and BCC 80
36 Biologic therapy: rituximab 84
37 Colchicine 86
38 Cyclophosphamide 88
39 Cyclosporine (ciclosporin) 90
40 Dapsone and sulfapyridine 92
41 Fumaric acid esters (fumarates) 94
42 Glucocorticoids 96
43 Hydroxyurea (hydroxycarbamide) 98
44 Intravenous immunoglobulin 100
45 Isotretinoin 102
46 Methotrexate 104
47 Mycophenolate mofetil 106
48 Thalidomide 108

Procedural dermatology

49 Botulinum toxin 112
50 Triamcinolone (intralesional) 114
51 Iontophoresis 116
52 Laser therapy 118
53 Liquid nitrogen 120
54 Photodynamic therapy 122
55 Phototherapy 124
56 Biopsy (incisional) 126
57 Curettage 128
58 Excisions 130
59 Mohs micrographic surgery 132
60 Surgical complications (management) 134
61 Dressings and bandages 136
