CONTENTS

PART A
QUALITATIVE ANALYSIS

1. **Reactions of Carbohydrates** *1*
2. **Reactions of Proteins** *6*
3. **Urine Analysis** *10*

PART B
SPECIALISED TECHNIQUES AND INSTRUMENTATION

4. **Introduction to Commonly Used Instruments** *15*
5. **Chromatography** *19*
6. **Electrophoresis** *21*
7. **Autoanalyser and Quality Control** *23*

PART C
CLINICAL CHEMISTRY

8. **Blood Collection and Handling, Preparation of Serum and Plasma for Analysis** *24*
9. **Plasma Glucose Estimation** *25*
10. **Glucose Tolerance Test** *27*
11. **Estimation of Serum Total Cholesterol** *29*
12. **Serum Urea Estimation** *31*
13. **Serum Creatinine Estimation and the Creatinine Clearance Test** *32*
14. **Serum Total Protein Estimation** *36*
15. **Serum Albumin Estimation and the A/G Ratio** *37*
16. **Estimation of Serum Bilirubin** *39*
17. **Serum Transaminases [ALT (SGPT) and AST (SGOT)]** *41*
18. **Serum Alkaline Phosphatase Estimation** *43*
19. **Serum Uric Acid Estimation** *45*
20. **Serum Na^+ and K^+ Estimation** *47*

PART D
METABOLIC STUDIES

21. **The Respiration of Mitochondria and Oxidative Phosphorylation** *49*
22. **Effect of Inhibitors on the Respiratory Chain** *52*

PART E
MOLECULAR BIOLOGY

23. Molecular Biology ***53***
24. The Isolation of DNA from Pig Spleen ***57***
25. The Isolation of RNA From Yeast ***59***
26. The Estimation of DNA by the Diphenylamine Reaction ***60***
27. The Estimation of RNA by Means of the Orcinol Reaction ***61***
28. The Isolation of Bacterial DNA ***62***
29. The Isolation and Characterization of Eukaryotic mRNA ***64***

Appendix I *67*
Appendix II *69*

Index *71*
