Contents

Section 1: History Taking

1. An Overview 3
2. Afferent Symptoms 9
3. Efferent Symptoms 19
4. Systemic History 29
5. Neurological and Allergical History 35
6. Family and Social History 39

Section 2: Basic Examination

7. Examination of Vision 45
8. Tests for Malingering 59
9. Pupil Evaluation 65
10. Color Vision and Visual Field Testing 77
11. Ocular Motility Examination 89
12. Slit Lamp Examination 131
13. Intraocular Pressure and Fundus Examination 137

Section 3: Special Examination

14. Ptosis Evaluation 169
15. Lid Retraction 183

16. Proptosis Evaluation 187
17. Nystagmus Evaluation 209
18. Cranial Nerve Evaluation 217
19. Neurological Evaluation 231
20. Systemic Examination 235

Section 4: Investigations

21. Automated Visual Perimetry 243
22. Laboratory Tests 249
23. Ocular and Neuroimaging 255
24. Ocular Electrodiagnostics and Other Tests 271

Section 5: Common Disorders

25. Anterior Ischemic Optic Neuropathy 283
26. Optic Neuritis 291
27. Papilledema 295
28. Traumatic Optic Neuropathy 301
29. Abducens Nerve Palsy 305
30. Myasthenia Gravis 309
31. Oculomotor Nerve Palsy 315
32. Thyroid-related Ophthalmopathy 319
33. Trochlear Nerve Palsy 323

34. Pituitary Adenoma 327

35. Cerebral Infarct 333

Section 6: Multiple Choice Questions

Multiple Choice Questions **341**

Answers to MCQs **365**

Index *401*
