Contents

Part 1: Organ Function Tests *1-82*

1. Renal Function Tests *3*
2. Liver Function Tests *15*
3. Gastric Function Tests *36*
4. Thyroid Function Tests *47*
5. Adrenocortical Function Tests *60*
6. Pancreatic Function Tests *72*

Part 2: Laboratory Investigations *83-262*

7. Hyperglycaemia *85*
8. Hypoglycaemia *96*
9. Hypercalcaemia *106*
10. Hypocalcaemia *118*
11. Hypercortisolism *125*
12. Hypocortisolism *132*
13. Hyperlipoproteinaemias (Hyperlipidaemias) *139*
14. Jaundice *149*
15. Neonatal Jaundice *159*
16. Hyperthyroidism *171*
17. Hypothyroidism *182*
18. Malabsorption Syndrome *191*
19. Obesity *204*
20. Polyuria *212*
21. Haemolytic Transfusion Reaction *218*
22. Haemolytic Anaemia *227*

23. Iron Deficiency Anaemia *240*

24. Macrocytic Megaloblastic Anaemia *248*

Part 3: Miscellaneous *263-290*

25. Enzymes and Isoenzymes in Clinical Medicine *265*

26. Oncogenic Markers (Tumour Markers) *281*

Part 4: Inborn Metabolic Diseases (Inborn Errors of Metabolism) *291-376*

27. Inborn Metabolic Diseases (Inborn Errors of Metabolism) *293*

A. Disorders of Carbohydrate Metabolism 295

B. Amino Acid Metabolic Disorders 327

C. Disorders of Lipid Metabolism 358

D. Inborn Errors of Defective DNA Repair and Purines/Pyrimidine Metabolism 365
