Contents

Section I: General Considerations

1. General Principles for Emergency Anesthesia 3

Manju N Gandhi, Kanchan R Rupwate, Kamlesh G Gotiwale, Manish B Kotwani

- Definition of Emergency Surgery 4
- Definition of Urgent Surgery 4
- Environment Consideration and Preparedness 4
- Preoperative Assessment 5
- Emergency Investigations 5
- Preanesthetic Preparation 5

2. Medical Disorders and Emergency Anesthesia 18

Manju N Gandhi, Amala G Kudalkar, Kamlesh G Gotiwale, Devendra W Thakare

- Patient with Thyroid Disease 20
- Patient with Diabetic Mellitus 25
- Patient with Renal Disease 29
- Patient with Hypertension 33
- Patient with Ischemic Heart Disease 36
- Patient with Valvular Heart Disease 41
- Patient with Chronic Obstructive Pulmonary Disease (COPD) 45
- Patient with Liver Disease 48

3. Choice of Anesthetic Agents for Emergency Surgery 54

Aparna A Nerurkar, Deepti M Kotwani, Manju N Gandhi

- Intravenous Induction Agents 55
- Inhalational Anesthetic Agents 60
- Neuromuscular Blocking Agents 64
- Nondepolarizing Neuromuscular Blocking Agents 66
- Antagonism of Residual Neuromuscular Blockade 68
- Opioids 70
- Individual Opioids 73
- Benzodiazepines 76

4. Blood and Blood Component Therapy in Emergency Anesthesia 80

Aparna A Nerurkar, Manish B Kotwani

- Technical Aspects of Blood Component Administration 82
- Massive Blood Transfusion 86
- Practical Approach to Massive Blood Transfusion 86
- Treatment of Other Factor Deficiencies 95
- Checklist for Giving Blood and Blood Components 96
- Future Goals 97

Section II: Cardiovascular Emergency Procedures

5. Anesthesia for Emergency Myocardial Revascularization 103

Manju N Gandhi, Aparna A Nerurkar

- Indications for Emergency Revascularization 104
- Patient Profile 104
- Investigations 106
- Treatment Options 107
- Stabilization 107
- Monitoring 109
- Percutaneous Coronary Intervention 110
- Premedication 112
- Induction 112
- Other Cardiovascular Drugs to be Kept Ready 114
- Maintenance 114
- Coagulation Considerations 114
- Protamine Administration 115
- Temperature Maintenance 115
- Systemic Inflammatory Response Syndrome 115
- Myocardial Protection 115
- Choice of Ionotropes/Vasopressors/Vasodilators 115
- Postoperative Management 116
- Role of Regional Anesthesia 116
- Management of Post MI Complications 116

6. Anesthesia for Emergency Valvular Heart Procedure 120

Kanchan R Rupawate, Shalaka A Gandhi, Manju N Gandhi

- Mitral Stenosis (MS) 121
- Goals of Perioperative Management 123
- Monitoring 123
- Anesthetic Management 124
- Acute Mitral Regurgitation 124
- Aortic Stenosis (AS) 126
- Acute Aortic Incompetence (AAI) 128

7. Anesthesia for Emergency Blalock-Taussig Shunt 136

Manju N Gandhi, Aparna A Nerurkar, Deepti M Kotwani

- Types Of Shunts 137
- Clinical Presentation 138
- Laboratory Studies 140
- Hypercyanotic (TET) Spells 141
- Management of Anesthesia 141
- Operative Details of a modified Blalock-Taussig Shunt 144

8. Anesthesia for Emergency Vascular Surgery 147
Kanchan R Rupwate, Kamlesh G Gotiwale, Manju N Gandhi

- Pathophysiology of Aortic Occlusion and Reperfusion 148
- Aortic Cross-clamping 148
- Aortic Unclamping 148
- Preoperative Evaluation 148
- Emergency Abdominal Aorta Repair 149
- Anesthesia for Emergency Thoracoabdominal Aorta (TAA) Repair 151
- Anesthetic Management 151
- Anesthesia for Emergency Endovascular Aortic Repair 153
- Anesthesia for Emergency Lower Extremity Revascularization 154
- Cardiac Trauma and Great Vessel Injury 155
- Anesthesia for Emergency Pulmonary Embolectomy 156

9. Anesthesia for Cardioversion 160
Aparna A Nerurkar, Manish B Kotwani

- Basic Principles 161
- Indications and Contraindications 161
- Contraindications 162
- Overview of the Procedure 162
- Anesthesia for Cardioversion 163

Section III: General Surgery

10. Anesthesia for Intestinal Obstruction 171
Amala G Kudalkar, Trupti S Pethkar

- Etiology 172
- Pathophysiology 173
- Fluid Shifts 178
- Plan of Anesthesia 184

11. Anesthesia for Abdominal Sepsis 190
Amala G Kudalkar

- What is Sepsis? 191
- Postoperative Peritonitis 192
- Pathophysiology 192
- Physiological Sequelae of Sepsis 193
- Clinical Features 195
- Role of Anesthesiologist in the Management of Abdominal Sepsis 196
- Preoperative Assessment and Optimization 196
- History 196
- Examination 196
- Investigations 197
- Initial Resuscitation 198

- Volume of Resuscitation 199
- Colloids or Crystalloids 199
- Diagnosis 200
- Antibiotic Therapy 200
- Source Control 200
- Use of Vasopressors and Inotropes 200
- Premedication 201

12. Gastrointestinal Bleeding 206

Amala G Kudalkar, Devendra W Thakare

- Occult Bleeding 207
- Upper Gastrointestinal Bleeding 207
- Clinical Features 209
- Diagnosis 209
- Early Pharmacological Management 211
- Management of Nonvariceal Upper Gastrointestinal Bleeding 211
- Acid Suppression and Agents to Arrest Bleeding 212
- Surgical Management 213
- Child-pugh's Grading of Chronic Liver Disease 213
- Sengstaken-Blakemore Tube 214
- Management of Bleeding Varices not Controlled by Endoscopy 215
- Lower Gastrointestinal Bleeding 215
- Anesthetic Considerations 216
- General Approach to the Patient with Acute GI Hemorrhage 216
- Anesthesia for Injection of Bleeding Esophageal Varices 217
- Preanesthetic Management 217
- Postanesthetic Management 218

Section IV: Obstetric Emergencies

13. Anesthesia Management of Pregnant Patient for Emergency Surgery 223

Smita S Lele, Preeti Rustagi

- Altered Maternal Physiology and its Anesthetic Implications 224
- Cardiovascular System 225
- Fetal Effects from Anesthesia and Surgery 226
- Uteroplacental Perfusion and Fetal Oxygenation 228
- Prevention of Preterm Labor 229
- Practical Considerations 229
- Anesthetic Management for Nonobstetric Surgery 229
- Premedication 230
- Special Situations 232
- Anesthetic Management 236
- General Anesthesia 236
- Regional Anesthesia 237

14. Pregnancy Induced Hypertension and Anesthesia 240
Shantanu B Kulkarni, Urvi H Desai, Manju N Gandhi

- Classification 240
- Preeclampsia 240
- Eclampsia 240
- HELLP Syndrome 240
- Chronic Hypertension 240
- Incidence and Predisposing Factors 241
- Etiology 241
- Classification of Preeclampsia 241
- Pathophysiology 241
- Cardiovascular System 241
- Anesthetic Implications 241
- Respiratory System 242
- Anesthetic Implications 242
- Central Nervous System 242
- Anesthetic Implications 242
- Kidney 242
- Anesthetic Implications 242
- Liver 242
- Anesthetic Implications 242
- Fetoplacental Unit 242
- Hematological Unit 242
- Anesthetic Implications 243
- Management 243
- Preoperative Assessment 243
- Monitoring 244
- Analgesia for Labor and Vaginal Delivery 244
- Epidural Analgesia 244
- Technique 244
- Combined Spinal and Epidural Analgesia (CSE) 244
- Choice of Anesthesia for Cesarean Section 245
- Regional Anesthesia 245
- Technique for Regional Anesthesia 245
- General Anesthesia 245
- Management of Pulmonary Edema 246
- Eclampsia 246
- Principles of Treatment of Eclampsia 247
- Magnesium Therapy 247
- Anesthetic Management 247
- Management of Patient with HELLP Syndrome 248

15. Anesthesia for Hemorrhagic Obstetric Patient 250
Smita S Lele, Urvi H Desai, Manju N Gandhi

- Suggested Plan for Anesthesia 254
- Antepartum Hemorrhage (APH) 254
- Postpartum Hemorrhage (PPH) 258
- Management of Hemorrhagic Shock in Obstetric Patients 260
- Management of Disseminated Intravascular Coagulation (DIC) 261

16. Anesthesia for Pregnant Patient with Medical Disorders 265
Shantanu B Kulkarni, Preeti Rustagi, Smita S Lele, Manju N Gandhi

- Cardiovascular Diseases 266
- Anemia 277
- Obesity 278
- Thyroid Disorders 282
- Diabetes Mellitus 286
- Viral Hepatitis 288
- Renal Diseases in Pregnancy 291
- Malaria 294
- Human Immunodeficiency Virus (HIV) 295

Section V: Neonatal and Pediatric Emergencies

17. General Consideration in Neonatal and Pediatric Emergency Surgeries 303
Anila D Malde, Nilam D Virkar

- Physiology 304
- Pharmacology 310
- Preoperative Assessment 312
- Preoperative Preparation 312
- Induction of Anesthesia 313
- Early Postinduction Period 314
- Emergence and Extubation 317
- Basic Postoperative Care 317

18. Anesthetic Management of Neonatal Thoracic Emergencies 321
Anila D Malde

- Congenital Diaphragmatic Hernia 322
- Esophageal Atresia and Tracheoesophageal Fistula 330
- Congenital Lobar Emphysema (CLE) 337

19. Anesthesia for Neonatal and Pediatric Abdominal Emergencies 345
Anila D Malde, Trupti S Pethkar, Aklesh S Tandekar

- Abdominal Wall Defects 346
- Congenital Hypertrophic Pyloric Stenosis 351
- Necrotizing Enterocolitis 354

- Intestinal Obstruction 358
- Meconium Ileus 360
- Malrotation and Volvulus 362
- Anorectal Malformation 363
- Intussusception 364
- Roundworm Obstruction 365

Section VI: ENT and Ophthalmic Emergencies

20. Anesthesia for Post-tonsillectomy Bleeding Patient 371
Swati S Chhatrapati, Nilam D Virkar, Anila D Malde

- Anesthetic Considerations in Post-tonsillectomy Bleeding 372

21. Anesthetic Considerations in Deep Neck Space Infections 377
Anila D Malde, Swati S Chhatrapati

- Deep Neck Infections: A Constant Challenge 377
- Retropharyngeal Space 379
- Lateral Pharyngeal Space 379
- Peritonsillar Space 379
- Submandibular Space 380
- Risk Factors for the Development of Deep Neck Infections 380
- Management of Airway 385

22. Anesthesia for Removal of Foreign Body from Airway and Upper Digestive Tract 388
Anila D Malde, Swati S Chhatrapati

- Foreign Body Aspiration 389
- Foreign Body in the Upper Digestive Tract 398

23. Anesthesia for Ophthalmic Emergencies 402
Swati S Chhatrapati, Nishant S Bawankule

- Types of Ophthalmologic Emergencies 402
- Common Types of Eye Injury 403
- Anesthetic Management of Penetrating Eye Injury 403

Section VII: Neurosurgical Emergencies

24. Anesthesia for Neurosurgical Decompression 411
Hemangi S Karnik, Naina P Dalvi, Dhawal R Wadaskar

- Applied Neurophysiology 411
- Anesthesia for Emergency Craniotomy 420
- Specific Emergency Conditions 427

25. Anesthesia for Cerebrovascular Emergencies 432
Hemangi S Karnik
- Intracranial Aneurysms 432
- Arteriovenous Malformation (AVM) 439
- Spontaneous Intracerebral Hemorrhage (SICH) 441
- Acute Ischemic Stroke 444

Section VIII: Trauma

26. Anesthesia for Head Injuries 451
Hemangi S Karnik, Jyoti S Magar, Devangi A Parikh
- Head Injury 452
- Immediate Assessment 457
- Diagnosis of Head Injury 458
- Immediate Management 459
- Monitoring Injured Brain 466

27. Anesthesia for Acute Spine injury 473
Naina P Dalvi, Devangi A Parikh, Hemangi S Karnik
- Epidemiology 474
- Mechanism of Spinal Cord Injuries 474
- Pathophysiology 475
- Classification 476
- Role of Anesthesiologist in ASCI 476
- Clinical Clearance or Radiological Diagnosis of Spine Injury 479
- General Management 479
- Surgical Intervention 481
- Intraoperative Management 481
- Plan for Airway Management in a Patient with Cervical Spine Injury 483
- Complications in Spine Surgery 485

28. Anesthesia for Thoracic Trauma 488
Jyoti S Magar, Deepali P Thakur
- Airway Assessment and Management 490
- Circulation 494
- Maintenance of Anesthesia 500
- Invasive Monitoring 501

29. Anesthesia for Abdominal Trauma 508
Hemangi S Karnik, Nazmeen I Sayed
- Relevant Anatomy 508
- Specific Organ Injuries 509
- Immediate Assessment and Resuscitation 510
- Diagnosis of Abdominal Trauma 512

- Pathophysiology of Hemorrhagic Shock 513
- Resuscitation 513
- Surgical Management 517
- Anesthetic Management 517
- Intraoperative Concerns 520
- Emergence and Tracheal Extubation 522
- Damage Control Surgery (DCS) 522
- Abdominal Compartment Syndrome (ACS) 523
- Associated Conditions 524

30. Anesthesia for Pelvic and Long Bone Fractures 527

Jyoti S Magar, Hema B Gupta

- Pelvic Fractures 528
- Associated Injuries 529
- Long Bone Fractures 530
- Primary Survey and Resuscitation 530
- Definitive Management 531
- Anesthetic Considerations 533

31. Anesthesia for Patients with Crush Injury 538

Naina P Dalvi, Dhawal R Wadaskar

- Pathophysiology of Crush Injury 538
- Toxins Released in Crush Injury 539
- Clinical Presentation 539
- Prehospital Care 539
- Emergency Management 540
- Stabilization of Hemodynamic Status 540
- Surgical Management of Crush Injury 541
- Complications after Crush Injury 541
- Compartment Syndrome 541
- Measurement of Intracompartmental Pressures 541
- Rhabdomyolysis 541
- Pathophysiology 542
- Clinical Features 542
- Investigations 542
- Management 542
- Anesthesia in Crush Injury Patients 542

32. Anesthetic Considerations in Blast and Burn Injuries 546

Jyoti S Magar, Deepali P Thakur

- Etiology 547
- Mechanism of Injury in Blast 548
- Burns 555
- Pathophysiology of Burns 556
- Resuscitation 558

33. Anesthesia for Maxillofacial and Upper Airway Trauma 565
Geeta A Patkar, Hema B Gupta

- Related Anatomy of Upper Airway and Maxillofacial Structures 566
- Mechanisms of Injury to the Maxillofacial Structures and Upper Airway 568
- Maxillofacial Fractures 569
- Associated Injuries and their Implications 570
- Acute Management 570
- Elective Management 573

Section IX: Miscellaneous

34. Anesthesia for Emergency Microvascular Surgeries 579
Shakuntala N Basantwani, Sohini S Shah

- Practical Considerations in Management of Patients 582

35. Anesthesia for Emergency Renal Transplant 588
Shakuntala N Basantwani, Geeta A Patkar, Nazmeen I Sayed

- Types of Renal Transplantation 589
- Contraindications for Cadaveric Organ Donation 589
- Diagnosis of Brain Death 590
- Organ Dysfunction in Cadaver and its Management 591
- Kidney Recipient 593
- Pathophysiology of Chronic Renal Failure (CRF) 594
- Dialysis 597
- Preoperative Assessment 598
- Preoperative Investigations and Preparation 599
- Anesthetic Management
- Surgical Steps

36. Role of Anesthesiologist in Disaster Management 606
Kanchan R Rupwate, Shalaka A Gandhi, Manju N Gandhi

- Definition of Disaster 607
- Types of Disaster 607
- Phases of Disaster Management 607
- Activities Involved in Disaster Management 608
- Prehospital Response Service 612
- Emergency Reception, Triage and Resuscitation Service 612
- Emergency Operative and Postoperative Service 613
- Psychological Rehabilitation Aftercare Service 614
- Specific Conditions of Disaster 615
- Radiation Management 617
- Special Considerations 617

Index 619
