Contents

1. Exhibition Model on Cardiovascular System 1

Heart attack and high blood pressure *1*

Form of project: Model of heart exhibition *1*

Explanation of coronary angioplasty *1*

- Types of project *2*
- Need for the project *3*
- Planning of the project *3*

Understanding of anatomy, physiology and the functions of heart *4*

- Group reflection *4*
- Preplan *4*
- Background information of the area through detailed survey *5*
- Goals and objectives *5*
- Collection of data *6*
- Assessment of resources *6*
- Fixing the priority *6*
- Expected outcome of the project *7*

Heart diseases are public health problems: Together how to solve the problem—by motivation and awareness in the public *7*

- Implementation *7*
- Appropriate technology *8*
- Schedule of stages—start to finish *8*
- Educational values of the project *9*
- Group presentation *9*
- Anatomy and physiology of the heart *11*
- Coronary arteries *11*

Information doctors can get with ECG of your heart *11*

- The information that doctor gets from ECG results *11*
- Risk factors for heart diseases *12*
- What is a heart attack? *13*
- Common mistakes committed during a heart attack *13*
- What to do during a suspected heart attack? *14*

How to reduce blood cholesterol? *14*
Foods to avoid *15*
Diet to be avoided—diet to be taken in high cholesterol, high blood pressure *15*
Benefits of exercise *17*
Maintaining weight and the dangers of over weight on health *17*
Are you a little unfit? *18*
It is never too late to take the crucial first step towards fitness *19*
What are early warning signs of stress? *19*
Regular drug to control blood pressure *20*
Why do people smoke? *20*
High blood pressure is a silent killer *22*
Sphygmomanometer used to detect blood pressure *22*
Hypertension can affect your heart *23*
When there is a coronary blockage, which cannot be treated by drugs—bypass surgery indicated *23*
Diagnosis and investigations for heart diseases *25*
An incentive spirometer from which you will require sucking sufficiently, hard to keep plastic balls floating in the air *25*
Exhibition value of project *26*

2. Model Exhibition Project on Balanced Diet 28
Balance diet *28*
Introduction *28*
Definition *28*
Composition of balanced diet *29*
Balanced diet provides a sufficient number of calories *29*
Recommended daily allowances of calories *29*
Members of the group *29*
Title of the project: Balanced diet *31*
Date of commencement *31*
Need of the project *31*
Planning of the project *32*
Background information of area *32*
Survey *32*
Goals and objectives *33*
Assessment of resources *33*

Equipment required *34*
Manpower/work force required *34*
Appropriate technology *35*
Schedule of stages start to finish time *35*
Controlling *35*
Fixing of priority *37*
Collection of data *38*
Implementation *38*
Overall project *38*
Benefit of community *38*
Educational value of project *38*
Innovative approach and group presentation *39*
United we stand divided we fall *39*
Subject matter *39*
Vegetables *39*
Adequate amount of protein, fat and carbohydrate *39*
Fruits *40*
Pulses *41*
An adequate amount of vitamins and minerals for maintaining health, vitality and general well-being *41*
Animal food *42*
Fish has many varieties both fresh and salted *42*
Lack of calcium in diet leads to calcium deficiency disease *42*
Action at the family level *46*
Gave awareness of community nutritional program *47*
Note—amazing fruit—bananas *47*
Keep general principles of cooking *47*

3. Model Project Exhibition on Environmental Sanitation .. 49
Title of the project– environmental sanitation *50*
Introduction *50*
Planning of the project exhibition *51*
Background information of the area *52*
Assessment of resources *53*
Fixing of priority *53*
Expected outcome of the project *54*
Implementation *54*
Work force required *55*
Equipment required *55*
Appropriate technology *55*

Schedule of stages start to finish used properly *55*
Definition *55*
Controlling *56*
Participation of community *56*
Collection of data/information monitoring and utilization of data *57*
Feasibility of the project *58*
Overall project was economical *60*
Benefit and education value of the project in short *60*
Environmental problems *61*
Steps to be taken *64*
Group presentation *67*
Components *68*

4. Exhibition on Family Planning 73
Modern methods of family planning *73*
Method condom/nirodh *73*
Sterilization operation-women *73*
Vaginal diaphragm *74*
Foam tablets, creams and jellies *75*
Intrauterine devices/IUD *76*
Hormonal contraceptives *76*
Natural family planning method safe and unsafe days *78*
Safe period *78*
Natural family planning and safe and unsafe days of fertility *79*
Mucus method study and self-examination *81*
Exhibition on family planning project *82*
Criteria for selection of project *82*
Intellectual project *83*
In group project *83*
Group project model-I *84*
Exhibition on family planning *84*
Introduction *84*
Planning of the project *88*
Objectives *90*
Fixing of priority *90*
Expected outcome of the project *91*
Implementation *92*
Organization *93*

Start to finish—used properly *93*
Controlling *93*
Group presentation of project *96*
Natural family planning *97*
Condom *100*
Withdrawal *100*
Intrauterine devices (IUD) *100*
Hormonal contraceptives *101*
Creams and jellies *102*
Rhythm method *102*
Permanent method *102*

5. Planning Care on Newborn Infant/Pediatric Nursing .. 105
Characteristics of normal newborn *105*
General appearance *105*
Neurological system—reflexes of newborn *108*
Assessment of newborn and
infant principles of physical assessment *108*
Assessment of the neonate can be divided into
three phases *109*
Planning care on the normal newborn infant *110*
Objectives *110*
Knowledge and learning activities *111*
Assessing sick infant age *1* week up to *2* months *112*
Check for feeding problem or low weight *113*
Primary newborn care *114*
What is an incubator? *115*
How it works? *116*
Common problems in newborn baby *116*
Prevention in hemolytic disease *118*
Common infection in neonates *118*
Summary *121*

6. Health Education Model on Antenatal Care 122
Introduction *122*
Objectives of antenatal care *123*
Specific objectives *139*

7. Lesson Plan on Communication Skills 140
Lesson plan on communication skills *140*
General objective *140*
Specific objectives *140*

8. **Understanding of Med-Surg Nursing Case Study 148**
Values of the nursing care study *149*

9. **Surgical Case Study—Model 152**
The following details of the patient to be recorded *152*
Complete data about patient *152*

10. **Medical Nursing Care Plan—Model 158**
Assessment *158*
Planning *158*
Implement nursing care *158*
Evaluate *159*
Identification *159*
Past health history *160*
Present surgical history—nil past surgical history—nil *160*
Family history *160*
Personal history *160*
Nutritional history *161*
Socioeconomic history *161*
Environmental history *161*
Physical examination of patient from head to feet *161*
Community nursing care plan in the field visit *173*

11. **Psychiatric Nursing Care Plan—Model —Schizophrenia 177**
Therapeutic need *177*
Psychological need *177*
Sample model nursing care plan- schizophrenic patient *178*
Patient with excitement *186*
Depression *187*
Anxiety *188*

12. **Lesson Plan—Temperature 189**
Introduction *189*
Sample class plan *191*
Class—the cardinal symptoms—temperature *191*
Objectives of the class *191*

13. **Ethical Aspect of Nursing and Alcoholism 198**
Introduction *198*
Ethical issues in nursing *198*

Ethos means custom or characters of a profession and called code *199*
The nurse as a member of a health team *200*
Principles *200*
Alcoholism *201*

14. Case Presentation on Alzheimer's Diseases 204
Introduction *204*
Aims of health education *205*
Purpose of health education *205*
Objectives of health education *205*
Important points to be kept in mind— *206*
Introduction of topic Alzheimer's *207*
It destroys brain cells, causing problems— *207*
Specific objectives of the health education topic selected *208*

15. Lesson Plan Model on Family 223
Family health nursing *223*
Introduction *223*
Types of family *225*
Functions of family *226*
There is sharing of responsibilities *226*
Lesson plan on family *228*
Identification data *228*
General objectives *228*
Specific objective *228*
Important point while planning lesson plain *228*
Self-introspection for teacher *233*

16. Psychiatric Nursing 235
Historical periods *235*
Period of persecution *236*
Period of segregation *236*
Humanitarian period *236*
Beginning of scientific attitude *236*
Period of prevention *237*
General principles of psychiatric nursing *237*
Reassurance to be given in a subtle and acceptable manner *239*
Qualities of a psychiatric nurse *240*

Functions *241*
Techniques used *243*
Etiology *246*
Metabolic causes *246*
Nursing management *247*
Mental status examination (MSE) *248*
General appearance and behavior to be noted *249*
Important test—a nurse should know *250*
Does your life have a purpose? *251*

17. Importance of Nurse and Ward 252
Managerial skills for nurses *252*
Management of patient care admission and orientation of the patient *253*
Admission of the patient *253*
Purpose of admission *254*
Assessment of the patient's needs and planning of the patient's care *254*
Success depends on effectiveness and efficacy of management *256*
Qualities *256*
Principles *256*
Level of management *257*
Management of supplies and equipment *257*
Progressive patient care *259*
Intermediate care units *259*
Self-care units *259*
Priority nursing care *260*
Assignment of personnel for patient care *260*
Sample of the weekly program for the head nurse *265*
Sample of the monthly program for the head nurse *266*
Samples of the yearly program for the head nurse *266*
Weekly time schedule *266*
Principles of time planning and patient assignments *267*
Ward round *267*
Reports and record *269*
Management of emergencies *270*
Patient teaching *270*

Appraisal of nursing services *271*
Management of the personnel *272*
Supervision of personnel and delegations of responsibility *272*
Establishment of interpersonal relationship (IPR) *273*
Evaluation of personnel *274*
Staff conference and purpose *275*
Nature of nursing administration *276*

Index *279*
