Introduction ..... *xxii*
Adel Barbara

Section 1: Epidemiology, Genetics and Pathology

1. Epidemiology of Keratoconus **3**
Malecaze Francois, Ancele E, Butterworth J
Introduction, 3
Incidence, Prevalence, 3
Epidemiological Characteristics of Affected Keratoconus Patients, 3
Role of Mechanical Factors, 5
Role of Atopy, 6
Association with Connective Tissue Disorders, 6
Association with Down Syndrome, 7
Other Associations, 8

2. Genetics of Keratoconus **12**
Malecaze Francois, N Chassaing, P Calvas
Introduction, 12
Elements Favoring the Implication of Genetic Factors in the Determinism of Keratoconus, 12
Different Molecular Approaches in Order to Identify the Genetic Factors involved in Keratoconus, 13
Perspectives, 15

3. Inflammation in the Pathogenesis of Keratoconus **18**
Abraham Solomon
Introduction, 18
Atopic Diseases, 18
Ocular Surface Diseases, 19
Eye Rubbing, 19
Inflammatory Cytokines, 19

4. Keratoconus and Eye Rubbing **23**
Alejandro Villarreal G, Igor Kaiserman
Introduction, 23
Etiology and Associations, 23
Keratoconus and Eye Rubbing, 23
Pathophysiology of Keratoconus, 24
Controlling Eye Rubbing – Behavioral Changes, 25
Recurrence of Keratoconus after Penetrating Keratoplasty, 26
Future, 26

5. Biomechanics in Keratoconus 29
Cynthia J Roberts
Cycle of Biomechanical Decompensation, 31

Section 2: Diagnosis of Keratoconus and Diagnostic Tools

6. Clinical Signs and Differential Diagnosis of Keratoconus 35
George D Kymionis, Argyro D Plaka, Georgios A Kontadakis
Introduction, 35
Diagnosis, 35
Onset and Symptoms, 35
Clinical Signs, 35
Differential Diagnosis of Keratoconus, 37

7. Corneal Topography and Keratoconus 40
David Varssano
Corneal Topography, 40
Topographic Patterns, 40
Keratoconus Detection, 41
Superior Keratoconus, 43
Early Detection, 44
Combination Indices, 47
Discussion, 47

8. Orbscan and Keratoconus 49
Ilia Piven, Irina S Barequet
Introduction, 49
Orbscan—General Principles, 49
Evaluation of Keratoconus with the Orbscan II, 51

9. Keratoconus Assessment by Scheimpflug Imaging 58
Irit Bahar, Eitan Livny
Introduction, 58
The Scheimpflug Principle, 58
Pentacam, 59
Corneal Elevation, Slope, and Curvature, 60
Mapping Keratoconus by Pentacam, 60
Sirius, 66
Galilei, 67

10. Diagnosis of Keratoconus Based on Wavefront Analysis 70
Renato Ambrósio Jr, Diogo L Caldas, Isaac Ramos, Allan Luz
Introduction, 70
Understanding Wavefront Aberrations, 71
Types of Wavefront Systems, 73
Corneal Wavefront Measurements, 74
Total Wavefront for Diagnosing Keratoconus, 74
Clinical Examples, 78

11. Corneal Hysteresis and the Use of the Ocular Response Analyzer in Keratoconus 91
Raneen Shehadeh-Mashor, Ramez Barbara, Adel Barbara, Hanna J Garzozi
Hysteresis, 91
The Corneal Biomechanical Properties, 91
Ocular Response Analyzer, 91
The Corneal Biomechanical Properties in Keratoconus, 92
Uses of the ORA in Keratoconus, 93

12. Diagnosing Keratoconus Using Artemis VHF Digital Ultrasound Epithelial Thickness Profiles 96
Dan Z Reinstein, Timothy J Archer, Marine Gobbe
Introduction, 96
Epithelial Thickness Profiles, 98
Artemis VHF Digital Ultrasound Arc-Scanning, 99
Epithelial Thickness Profile in Normal Eyes, 100
Epithelial Thickness Profile in Keratoconic Eyes, 101
Diagnosing Early Keratoconus using Epithelial Thickness Profiles, 102
Case Examples, 103

Section 3: Treatments of Keratoconus

13. Corneal Collagen Cross-Linking 111
Ioannis G Pallikaris, George D Kymionis, Dimitra M Portaliou
Introduction, 111
Pathophysiology of Corneal Ectatic Disorders, 111
Basic CXL Principle, 111
The Role of Riboflavin and Ultraviolet-A Irradiation in CXL, 111
Surgical Technique, 112
CXL Safety Precautions, 112
Clinical Results, 113
Complications, 113
Combined Treatments, 113
Biomechanical Effects of CXL, 115
Thermomechanical Effects of CXL, 115
Morphological Effects of CXL, 115
Effects of CXL on Collagenase Resistance, 115
Antihydration Effects of CXL, 115
Confocal Microscopy Analysis, 115
Potential Future Applications, 116

14. New Treatment Strategies in Keratoconus 119
Jes Mortensen
How the Treatment was Performed, 119
Treatment Approach Today in Keratoconus, 121

15. Intacs Intracorneal Ring Segments (ICRS) and Keratoconus 126
Adel Barbara, Lamis Abdelaziz, Ramez Barbara
Intacs in Corneas with Suspected Keratoconus, 127

Intacs and Keratoconus, 128
Operation Techniques, 131
Results and Long-term Follow-up, 136
Mechanical versus Intralase, 140
Reposition and Reimplantation of Intacs, 141
Complications, 141
Histology and Deposits, 144
Corneal Biomechanics and Intacs, 146
Additional Procedures to Enhance Intacs' Effects, 146
Intacs Compared with Other Surgical Procedures, 150
New Design of Intacs: Intacs SK, 151
Intacs and Other Ectatic Diseases of the Cornea, 153

16. Ferrara Ring 163
Paulo Ferrara, Leonardo Torquetti
The Ferrara Ring Characteristics, 164
How the Ferrara Ring Works, 164
Indications, 165
Contraindications, 165
Nomogram, 165
Surgical Techniques, 167
Clinical Results: Long-term Follow-up in Keratoconus, 168
Clinical Results: The 210 Ferrara Ring, 169
Clinical Results: Post-refractive Surgery Corneal Ectasia, 169
Clinical Results: Endothelium Evaluation, 170
Contact Lens Wear after Ferrara Ring Implantation, 171
Complications, 171
Comments, 172

17. The Myoring for the Treatment of Keratoconus 175
Albert Daxer, Lamis Abdelaziz, Ramez Barbara
Corneal Intrastromal Implantation System (CISIS), 175
Corneal Cross-linking (CXL) Combined with Corneal Intrastromal Implantation System (CISIS), 182

18. Anterior Lamellar Keratoplasty for Keratoconus 187
Ioannis Athanasiadis, Massimo Busin
Introduction, 187
Corneal Topography, 188
Undersized Lamellar Grafts, 188
Using Applied Cautery, 188
Using the Microkeratome to Prepare the Recipient, 189
Using the Microkeratome to Prepare the Donor Lamella, 190
Suturing of Lamellar Graft, 191
Postoperative Care, 191
Postoperative Stromal Folds, 192
Topography, 192
Effect of Suture Removal, 193
Irregular Astigmatism, 193
Treatment of Astigmatism, 194
Modified Microkeratome-assisted Lamellar Keratoplasty, 194

Postoperative Care, 195
Results of Modified Lamellar Keratoplasty, 196
Alternative Approach in Lamellar Keratoplasty for Keratoconus, 198

19. Lamellar Keratoplasty 202
Jes Mortensen
Immunology of the Eye, 202
The Reintroduction of Lamellar Keratoplasty, 202
My Own Experience of Lamellar Technique, 203
Keratoconus Group, 203
Endokeratoplasty Group, 204
Ectasia after LASIK, 204
Miscellaneous Diagnoses, 204
Postoperative Follow-up, 205
Complications, 205
Future, 206

20. Intraocular Lens Implantation in Keratoconus 208
Jaime Levy, Tova Lifshitz
Introduction, 208
Angle-supported Anterior Chamber Phakic IOL, 208
Iris-fixated Anterior Chamber Phakic IOL, 209
Posterior Chamber Phakic IOL, 211
Refractive Lens Exchange, 212
Sequential Surgery (Intacs + Phakic IOL), 213

21. Keratoconus: Surgical Options 216
Erez Bakshi, David Zadok
Introduction, 216
Penetrating Keratoplasty, 216
Deep Anterior Lamellar Keratoplasty (DALK), 219
Visual Outcome – Comparative Data, 222
