Contents

1. ***Epidemiology*** ***1***

2. ***Pathogenesis*** ***5***
   - Risk Factors for Diabetic Retinopathy 7
   - Pathogenesis of Diabetic Retinopathy 7
   - Biochemical Alterations 7
   - Hemodynamic Alterations 8
   - Paracrine Factors 9
   - Pathophysiologic Processes in Diabetic Retinopathy 9
   - Pathogenesis of Diabetic Macular Edema 10

3. ***Levels of Diabetic Retinopathy***..... ***15***
   - Retinal Lesions 16
   - Diabetic Macular Edema 18
   - Levels of Diabetic Retinopathy 21
     - Nonproliferative Diabetic Retinopathy (NPDR) 21
     - Proliferative Diabetic Retinopathy (PDR) 22
   - Examination Schedule 60
     - Recommended Eye Examination Schedule for Patients with Diabetes Mellitus 60
     - Treatment Recommendations 60
   - Visual Loss in Diabetes 62

4. *Fluorescein Angiography* *63*
- Procedure 65
- Angiographic Risk Factors for Progression of NPDR to PDR 68

5. *Optical Coherence Tomography* *85*
- Intraretinal Changes 88
- Inner Retinal Boundary 89
- Tractional Macular Edema 91
- Nonproliferative Diabetic Retinopathy 93
- Proliferative Diabetic Retinopathy 136
- Three-dimensional Retinal Imaging in Diabetic Retinopathy 145
- Retinal Photoreceptor Inner Segment-outer Segment Junction 154

6. *Ultrasonography* *157*

7. *Pharmacotherapy* *169*
- Intravitreal Triamcinolone Acetonide (IVTA) 170
- Antivascular Endothelial Growth Factor (VEGF-A) Therapy 180
- Positive and Negative Regulators of Angiogenesis 181
- Dexamethasone Intravitreal Implant 194

8. *Laser Photocoagulation* *201*
- Focal and Grid Laser in Diabetic Maculopathy 208
- Laser Photocoagulation Technique 215

– Focal Laser Photocoagulation 215
– Grid Laser Photocoagulation 215
– Follow-up 222
- Scatter Laser in Diabetic Retinopathy 222
  – Technique 223
- Follow-up 231
- Complications of Laser Photocoagulation 232

9. *Vitreoretinal Surgery* *235*
- Pars Plana Vitrectomy 238
  – Indications 238
  – Contraindications 239
- Mechanisms of Vitreous Hemorrhage 239
- Pars Plana Vitrectomy for Vitreous Hemorrhage 240
- Membrane Surgery: Pathoanatomy 243
- Membrane Surgery 245
  – Endpoint of Membrane Surgery 246
- Vitrectomy for Diabetic Macular Edema 264
- Complications 270
  – Intraoperative 270
  – Postoperative 270

10. *Laser Hyaloidotomy* *271*

11. *Medical Management* *277*
- Hyperglycemia 278
- Hypertension 278
- Hyperlipidemia 279
- Anemia 280
- Nephropathy 280
