Contents

1. Introduction to Fractures and Dislocations 1
MS Dhillon, Sarvdeep S Dhatt
- Classification Based on Etiology 2
- Classification Based on the Pattern of Fracture 2
- Classification Based on the Nature of fracture 4
- Joint Dislocations 4

2. Casualty Environment in Underdeveloped Countries 7
Sudhir S Babhulkar
- Accident and Emergency Services in Developing Countries: Problems and Solutions 7
- Ideal Accident and Casualty Services 8
- Effective Emergency Department Service 9
  - ❖ Location and Design 9 ❖ Personnel 9 ❖ Support Services 9 ❖Equipment 10
- Optimal Emergency Care of a Trauma Victim 10
  - ❖ Survey of the Scene 11 ❖ Primary Survey 12 ❖ Secondary Survey 13 ❖ Tertiary Survey 13
- Emergency Management of Orthopedic Injuries 13

3. Prehospital Care for Orthopedic Trauma: The Developed Countries Perspective 15
K Vivek Pannikar, Srinivas Samsani
- Basic Principles of Prehospital Care 16
  - ❖ Providers and Type of Prehospital Care 16
- Ambulance Services in the UK and USA 17
  - ❖ Prehospital Medical Management 17
  - ❖ Management of Airway 17 ❖ Measures to Maintain Airway 17 ❖ Oxygenation 19
  - ❖ Management of Hemorrhage and Fluid Resuscitation 19
  - ❖ Management of Spinal Injuries 21 ❖ Pain Management 21

4. Prehospital Care for Orthopedic Trauma: The Asian Perspective 23
Nandkishore Shamrao Laud
- AIM 24
  - ❖ Contact 25 ❖ Rescue, Transportation 25 ❖ Personnel 25
- Concept of Prehospital Care 25
- Prehospital Care 28

5. Splints, Bandages, Slings and Braces in the Casualty Environment 29
SC Goel, Amit Rastogi
- Indication of Splintage in Trauma 29
  - ❖ Advantages of Splinting 30 ❖ Commonly Used Splints 30
  - ❖ Cramer Wire Splint 31 ❖ Pneumatic Splints 31
- Spine 31
  - ❖ Dorsolumbar Spine 32
- Upper Limb 32
  - ❖ Lateral Elbow Splint 33 ❖ Finger Splints 33

- Lower Limbs 34
  - ❖ Thomas Knee Splint 35
- Bohler Braun Splint 35
  - ❖ Long Leg Splint 35 ❖ Posterior Leg Splint 36 ❖ Complications 37

6. How to Order Emergency X-rays? 38
Mandeep Singh Virk, Sharad Prabhakar, MS Dhillon

- Upper Extremity Trauma 39
  - ❖ Sternoclavicular (SC) Joint, Acromioclavicular (AC) and Clavicle 39
  - ❖ Glenohumeral Joint, Scapula and Proximal Humerus 39
- Humerus, Elbow and Forearm 40
  - ❖ Wrist 41 ❖ Hand 42
- Lower Extremity 42
  - ❖ Pelvis and Acetabulum 42 ❖ Hip and Femur 43 ❖ Femoral Shaft Fractures 43
  - ❖ Knee 43 ❖ Foot and Ankle 43 ❖ Foot 44

7. Orthopedic Infections 46
Anil Arora, Anil Agarwal

- Orthopedic Infections in Children 47
  - ❖ Clinical Presentation 47 ❖ Examination 48 ❖ Laboratory Investigations 49
  - ❖ Imaging Studies 49 ❖ Differential Diagnosis 54 ❖ Management 56
- Orthopedic Infections in Adults 56
- Special Situations 58
  - ❖ Discitis 58 ❖ Septic Arthritis of Sacroiliac Joint 58 ❖ Chronic Recurrent Multifocal Osteomyelitis 59
  - ❖ Osteomyelitis in Sickle Cell Disease 59
- Tuberculosis 60
  - ❖ Spinal Tuberculosis (Pott's Spine) 60 ❖ Tubercular Arthritis 61 ❖ Tubercular Osteomyelitis 62
  - ❖ Radiographic Picture 65 ❖ Diagnosis of Osteoarticular Tuberculosis 65

8. Dislocations in the Casualty: Understanding and Management 68
Sharad Prabhakar, Uttam Chand Saini, MS Dhillon

- Elbow Dislocation 70
  - ❖ Mechanism 70 ❖ Radiographic Evaluation 70 ❖ Management 70
- Hip Dislocations 71
  - ❖ Types 71 ❖ Closed Reduction 72
- Knee Dislocation 72
  - ❖ Classification 73 ❖ Mechanism of Injury 73 ❖ Radiographic Evaluation 73 ❖ Treatment 74
- Ankle Dislocation 74

9. First Aid in Open Fractures 76
Sarvdeep S Dhatt, Sameer Aggarwal

- Definition 76
- Classification 76
  - ❖ AO Soft Tissue Classification 76
- Acute Management 78
  - ❖ Emergency Room Care 78 ❖ History 78 ❖ Investigations 79 ❖ Radiographic Examination 79
- Surgical Management 79
  - ❖ Wound Care 79 ❖ Fracture Care ❖ Antibiotics 80 ❖ Wound Closure 80 ❖ Definitive Treatment 80
  - ❖ Complications 81

10. First Aid in Long Bone Fractures 82
Soumen Das De, Shamal Das De

- General Approach 82
  - ❖ Identify and Treat Acute Life-threatening Problems 82 ❖ Perform a Thorough Clinical Assessment 83
  - ❖ Formulate a Problem-list 84 ❖ Initiate Preliminary Treatment 84 ❖ Special Situations 85 ❖ Ensure Adequate Documentation 86

11. Emergency Management: Crushing Injuries of the Hand 88
Sudhir Warrier
- Extrication 88
- Primary Care 88
- Splintage 88
- Stopping Bleeding 89
- Tourniquet 89
- Care and Transportation of Severed Parts 89

12. First Aid in Foot and Ankle Injuries 90
Steven J Lawrence, MS Dhillon
- Ankle Sprains 90
- Ankle Fractures 91
- Talar Neck Fractures 92
- Peritalar Dislocations 93
  - ❖ Closed Reduction of a Peritalar Dislocation 94
- The Extruded Talus 94
  - ❖ Calcaneal Fractures 94
- Lisfranc Injuries 95
- Metatarsal Fractures 96
- Phalangeal Fractures 96
- Sesamoid Fractures 97
- Compartment Syndrome 97
- Foot Infections 97

13. Evaluation and Initial Treatment of Shoulder Injuries 100
Edward G McFarland, Harpal Singh Selhi, Juan Garzon-Muvdi, Steve A Petersen
- Shoulder Complex 100
- Basic Principles of Evaluation of the Shoulder Complex 100
- Serious Shoulder Injuries that can be Life-threatening 102
  - ❖ Posterior Sternoclavicular Dislocation 102 ❖ Penetrating Trauma to the Shoulder Area 102
  - ❖ Scapulothoracic Dissociation 102
- Common Shoulder Injuries and Treatment 103
  - ❖ Clavicle Fracture 103 ❖ Shoulder Dislocations (Glenohumeral Dislocations) 103
  - ❖ Proximal Humerus Fractures 104 ❖ Acromioclavicular Separations 104
  - ❖ Scapular Fractures 104 ❖ Rotator Cuff Injuries 105

14. Management of Acute Spinal Injuries 106
Rohit Rambani, Ben Okafor
- Anatomy and Pathophysiology 106
- Pathophysiology 109
  - ❖ Primary Injury 109 ❖ Secondary Injury 110
- Mechanism of Spinal Cord Injuries 110
  - ❖ Hyperflexion 110 ❖ Hyperflexion-rotation 110 ❖ Vertical Compression or Axial Loading 110
  - ❖ Hyperextension 110 ❖ Extension-rotation 110 ❖ Lateral Flexion 110
- Systemic Effects of Spinal Cord Injuries 110
- Management 112
- Prehospital Care of the Spinal Injury 112
- Radiological Assessment 114
  - ❖ Cervical Spine 114 ❖ Thoracolumbar Spine 115

- Use of Methylprednisolone 115
- Operative Management 115
- Prognosis 116

15. Primary Care in Patients with Pelvic Injury 117

Ramesh K Sen, Sameer Aggarwal

- Basic Pelvic Anatomy 117
- Mechanism of Disruptions 117
- Immediate Assessment of Patient with Pelvic Injury 118
- Emergency Care 118
- Consultation 118
- Making Approprite Diagnosis of Pelvic Injury 118
  - ❖ Physical Examination 118 ❖ Clinical Exclusion of Pelvic Injury 119
- Temporary Stabilization of Unstable Pelvis 119
- Planning X-rays 119
- Computerized Tomography Scans 119
- Other Investigations 119
- Subsequent Management of Pelvic Injury 120
  - ❖ Minor Pelvic Injuries 120 ❖ Major Pelvic Injuries 120
- Hemodynamic Resuscitation 120
- Stabilization of Pelvic Ring 120
  - ❖ Application of External Fixation 120 ❖ Problem Expected from Fixation 121
- Associated Injuries and Complications 121
  - ❖ Vascular Injury 121 ❖ Soft Tissue Injury—Open Pelvic Injury 121
- Associated Urological Injuries 122
  - ❖ Bladder Injury 122 ❖ Urethral Injury 122
- Associated Neurological Injuries 123
- Thromboembolic Complications 123
- Infection 123
- Pulmonary Complications 123
- Special Points in Patient Care 123
  - ❖ Transfer 123
- Medicolegal Implications in Pelvic Injury 123

16. First Aid in Polytrauma 125

Konkhet Riansuwan, Banchong Mahaisavariya

- Initial Assessment 125
  - ❖ Preparation 126 ❖ Triage 126 ❖ Primary Survey and Resuscitation 126 ❖ Adjuncts to Primary Survey 128
  - ❖ Secondary Survey 128 ❖ History-taking 128 ❖ Physical Examination 128
  - ❖ Adjuncts to Secondary Survey 129 ❖ Patient Re-evaluation 129 ❖ Definitive Treatment 130
- Immediate Life-threatening Conditions 130
  - ❖ Airway Obstruction 130 ❖ Tension Pneumothorax 130
  - ❖ Open Pneumothorax (Sucking Chest Wound) 130 ❖ Severe Flail Chest 131
  - ❖ Massive Hemothorax 131 ❖ Cardiac Tamponade 131
- Musculoskeletal Trauma 131
  - ❖ Principles of Musculoskeletal Trauma Management 131 ❖ Realignment of the Deformed Extremity 132

17. First Aid in Gunshot Injuries 133

Shivinder Sandhu, Harpreet Gill

- Weapons, Ammunition and Ballistics 133
- The Bullet Wound 134

- Bone Involvement 135
- Joint Involvement and Metal Intoxication 135
- Contamination and Infection 135
- First Aid and Management 136
  - ❖ Emergency Care at Site of Injury 136 ❖ Care in the Hospital 136

18. First Aid and Casualty Management of Sports Injuries 142

Jaspal S Sandhu, Shweta Shenoy

- Sporting Emergencies 142
  - ❖ Collapsed Athlete 143
- Preparation 143
  - ❖ Equipment 143 ❖ Types of Slings 144 ❖ Transport 144
- Personnel 144
- Management 144
  - ❖ Cardiopulmonary Resuscitation 144 ❖ Bleeding from Scalp 147 ❖ Bleeding from Nose 147
  - ❖ Bleeding from Ear 147 ❖ Bleeding from Eye 148 ❖ Bleeding from Mouth 148
  - ❖ Bleeding from the Gums 148
  - ❖ Vaginal Bleeding 148
- Head Injuries 148
  - ❖ Concussion 149 ❖ Cervical Spine Injury 150
- Pulmonary Emergencies 150
- Gastrointestinal Emergencies 151
  - ❖ Splenic Contusion and Rupture 151 ❖ Liver Injuries 151
- Genitourinary Emergencies 151
  - ❖ Ureter, Bladder and Urethral Trauma 151
- Unconscious Emergencies 152
  - ❖ Epilepsy 152 ❖ Diabetes 152 ❖ Stroke 152 ❖ Heart Attack 152 ❖ Environmental Emergencies 152

19. First Aid in Disasters 154

Raj Bahadur, Sarvdeep S Dhatt

- Trauma Centers 155
  - ❖ Level I 155 ❖ Level II 155 ❖ Level III 156 ❖ Level IV 156
- Triage 157
  - ❖ Disaster Triage 157 ❖ Importance of Retriage 157

20. Minor Orthopedic Emergencies 159

MS Dhillon, Ravi Gupta

- Minor Cuts and Lacerated Wounds 159
  - ❖ Diagnosis 159
- Animal Bites 160
- Acute Back Pain 160
- Closed Bone Fractures and Dislocations 160
- Pulled Elbow Syndrome (Nursemaid's Elbow) 160
  - ❖ Pathoanatomy 160 ❖ Clinical Features 160 ❖ Imaging 160 ❖ Management 160
- Cervical Strains and Sprains 161
  - ❖ Description 161 ❖ Clinical Features 161 ❖ Differential Diagnosis 161 ❖ Imaging 162
  - ❖ Electrodiagnostic Studies 162 ❖ Management 162
- Fight Bite and Clenched-fist Injury 162
  - ❖ Description 162 ❖ Clinical Features 162 ❖ Imaging 163 ❖ Management 163

- Subungual Hematoma 163
  - ❖ Description 163 ❖ History 163 ❖ Clinical Features 163 ❖ Differential Diagnosis 163
  - ❖ Imaging 163 ❖ Management 163
- Interphalangeal Collateral Ligament Sprain 164
  - ❖ Description 164 ❖ Clinical Features 164 ❖ Differential Diagnosis 164
  - ❖ Imaging 164 ❖ Management 164

21. Orthopedic Emergencies: The Nurses' Viewpoint 166

Sukhpal Kaur, Sarvdeep S Dhatt, Sharad Prabhakar

- Historical Perspective 166
- Triage and the Trauma Nurse 167
- General Management 168
  - ❖ Clinical Management Considerations 168 ❖ Violence in the Casualty 168

Index 171
