Contents

Section 1: Introduction to OCT

1. Introduction to Optical Coherence Tomography 3
2. OCT Equipment 7
3. Technique of Acquiring OCT 9
4. Selection of Scan Protocols 15
5. Interpretation of OCT Scan 27

Section 2: OCT in Macular Diseases

6. Diabetic Macular Edema 49
7. Idiopathic Central Serous Chorioretinopathy (ICSC) 119
8. Macular Hole 182
9. Retinal Vascular Occlusions 228
10. Retinal Vasculitis 262
11. Epiretinal Membranes 266
12. Age-related Macular Degeneration 296
13. OCT in Choroidal Neovascular Membranes 354
14. Juxtafoveal Telangiectasia 360
15. Heredodystrophic Disorders 381
16. Foveal Hemorrhage 436
17. Photic Maculopathy 440
18. Optic Disc Pits 448
19. Inflammatory Diseases of Retina-choroid 458
20. Retinal Angiomatosis Proliferation 541
21. Retinal Trauma 549
22. Macular Evaluation following Retinal Detachment Surgery 567
23. Degenerative Myopia 576
24. Postoperative Endophthalmitis 585
25. Multimodal Imaging with Spectralis HRA+OCT 591
Reema Bansal, Amod Gupta, Vishali Gupta

Section 3: Glaucoma

26. Introduction 659
Sushmita Kaushik, SS Pandav

27. OCT in Glaucoma 661
Sushmita Kaushik, SS Pandav

28. OCT Scans for Glaucoma *665*
Sushmita Kaushik, SS Pandav

29. Stratus OCT in Glaucoma *678*
Sushmita Kaushik, SS Pandav

30. Case Illustrations *688*
Sushmita Kaushik, SS Pandav

31. Limitations of OCT *723*
Sushmita Kaushik, SS Pandav

32. The Spectral Domain OCT for Glaucoma *732*
Sushmita Kaushik, SS Pandav

Index *741*
