CONTENTS

1. History Taking and Examination of An Ophthalmic Case ..... 1 – 12
2. Eyelid ..... 13 – 25
3. Conjunctiva and Sclera ..... 26 – 49
4. Cornea ..... 50 – 65
5. Lens ..... 66 – 99
6. Uvea ..... 100 – 117
7. Glaucoma ..... 118 – 139
8. Retina and Vitreous ..... 140 – 149
9. Orbit and Globe ..... 150 – 152
10. Neuro-ophthalmology and Pupil ..... 153 – 159
11. Squint ..... 160 – 164
12. Refraction ..... 165 – 176
13. Lacrimal Apparatus ..... 177 – 187
14. Trauma ..... 188 – 196
15. Community Ophthalmology ..... 197 – 200
16. Ocular Therapeutics ..... 201 – 208
17. Instruments ..... 209 – 244
18. Miscellaneous ..... 245 – 260

Glossary ..... 261 – 263

Index ..... 265 – 274

DVD Contents

1. *Examination of the Eye (A Instrumental)*
   - # Visual acuity testing
   - # Colour vision testing
   - # Pupillary reaction
   - # Examination of AC depth
   - # Ocular movements
   - # Carneal sensation
   - # Slit lamp examination
   - # Ophthalmoscopy
   - # Schiotz tonometry
   - # Applanation tonometry
   - # Syringing of NLD
   - # Biometry
   - # Visual field testing
   - # Autorefraction
   - # S/L Biomicroscopy (90D)
   - # Gonioscopy
   - # Superficial FB removal
2. *Surgery*
   - # Chalazion surgery
   - # Ptenygium surgery with conjunctival autograft
   - # Pacnicystectomy
   - # Dacryocystorhinostomy (music sound currupted)
   - # Cataract surgery (ECCE + PGI OL)
   - # Manual SICS with PCIOL
   - # Phacoemulsification
   - # Trabeculectomy
   - # Squint surgery
   - # Evisceration
   - # Enucleation
3. *Instruments*
