CONTENTS

Section A: General Aspects

1. Prevention of Communicable Diseases: Vaccines Today and Tomorrow 1
JK Dutta
- Vaccines Meant for Adults **3**
  - Typhoid Vaccine **3**
  - Primary Vaccination Schedule **4**
  - Cholera Vaccine **4**
  - Varicella Vaccine **5**
  - Measles-Mumps-Rubella (MMR) Vaccine **5**
  - Pneumococcal Vaccine **5**
  - Component **5**
  - Japanese Encephalitis Vaccine **6**
  - Prevention Among Travelers **6**
  - Tomorrow's Vaccines (Vaccines Under Development) **7**
  - Combination Vaccines **8**

2. Disaster-related Communicable Diseases: Management and Prevention 9
JK Dutta
  - Definition **9**
  - Types of Disasters **9**
  - Communicable Disease Outbreak in Disaster Setting **10**
  - Postdisaster Communicable Diseases **10**
  - Control of Communicable Diseases in Disaster Setting **10**
  - Laboratory Support **11**

3. Terrorism and Bioterrorism 12
JK Dutta
- What is Terrorism? **12**
  - Bioterrorism **12**
  - Historical Background **12**
  - Requirements of a Suitable Biological Weapon **13**
  - Potential Biological Agents **13**
  - Preparedness **13**

4. Travel and Recreation-related Infectious Diseases 15
JK Dutta
- Travel **15**
- Runway Malaria **16**
- Recreation **16**

5. Transfusion and Transplantation Transmitted Infectious Diseases 18
JK Dutta
– Transfusion-related Emerging Diseases **18**
– Transplantation Transmitted Emerging Diseases **18**

6. Hospital Infection: Prevention and Control 21
JK Dutta, Madhumala Giri
– Infection Control Program in USA **21**
– Problems and Control of Hospital Infections in India **22**

Section B: Infectious Diseases

7. Ehrlichiosis 25
JK Dutta
– Human Monocytic Ehrlichiosis (HME) **26**
– Human Granulocytic Ehrlichiosis (HGE) **26**

8. Bartonella Infections 28
JK Dutta
• Bartenellosis (Carrion's Disease) **28**
– Clinical Features **28**
– Cat-scratch Disease **29**
– Trench Fever **29**

9. *Escherichia Coli* 0157:H7 32
JK Dutta
– Characteristics of the Organism **32**
– Clinical Features **32**
– Prevention **32**

10. Antibiotic Resistant Enterococci and Drug Resistant *Streptococcus Pneumoniae* 34
JK Dutta
• Enterococci **34**
– Clinical Illness **34**
– Treatment **34**
• Drug Resistant *Streptococcus Pneumoniae* **34**
– Clinical Illness **34**
– Drug Resistance **35**

11. Salmonellosis 36
TK Dutta, V Mukta
• Introduction **36**
– History **36**
– Epidemiology and Public Health **36**
– The Pathogen **37**
– Pathogenesis and Pathology **38**

- – Enteric Fever **39**
- – Nontyphoidal Salmonellosis **40**
- – Clinical Syndromes **40**
- – Intra-abdominal Infections **42**
- – Enteric Fever Diagnosis **42**
- – Diagnosis of Nontyphoidal Salmonellosis **43**
- – Treatment **43**
- – Chronic Carriers **44**
- – Vaccines **45**

12. Cholera 47

JK Dutta

- – Etiology **47**
- – Pathophysiology **48**
- – Epidemiology **49**
- – Clinical Features **49**
- – Complications **50**
- – Diagnosis **50**
- • Management **50**
- – Antimicrobial Agents **52**
- – Antimicrobial Resistance **53**
- – Preventive Measure **53**

13. Plague: The Current Scenario 55

JK Dutta

- – Current Global Scenario **55**
- – Scenario in India **55**
- – Etiology **56**
- – Epidemiology **56**
- – Clinical Manifestations **56**
- – Bubonic Plague **57**
- – Pneumonic Plague **57**
- – Septicemic Plague **57**
- – Meningeal Plague **57**
- – Other Forms of Plague **57**
- – Laboratory Diagnosis **57**
- – Differential Diagnosis **58**
- – Treatment **58**
- – Streptomycin **58**
- – Tetracycline **58**
- – Chloramphenicol **58**
- – Cotrimoxazole **58**
- – Prophylactic Measures **58**
- – Plague Surveillance **59**

14. Leptospirosis 61

TK Dutta, RK Sahoo

- • Introduction **61**
- • History **61**

- The Pathogen **61**
- Species **62**
- Epidemiology **62**
  - Clinical Manifestations **66**
  - Pulmonary Syndrome **67**
- Uncommon Manifestations **68**
- Investigation **68**
  - Diagnosis **68**
  - Isolation of Organism **69**
  - Serology **69**
  - Detection of Specific DNA **70**
  - Specific Serovar **70**
- Who Guidelines **70**
- Differential Diagnosis **72**
- Treatment **72**
- Prognosis **73**
- Prevention **73**
- Summary **73**

15. Yaws: A Global Menace 75

JK Dutta

  - Global Scenario **75**
  - Indian Scenario **75**
  - Etiology **76**
  - Epidemiology **76**
  - Clinical Manifestations **76**
  - Histopathological Changes **77**
  - Diagnosis and Differential Diagnosis **77**
  - Serological Tests **77**
  - Treatment **78**
  - Yaws Eradication Program **78**

16. Chikungunya Fever 80

JK Dutta

  - Etiology **80**
  - Epidemiological Features–Asia **80**
- India **80**
  - Re-emergence of Chikungunya Infection-Global Scenario **81**
  - Incidence of Re-emerging Infection in India **81**
  - Clinical Features **81**
  - Laboratory Diagnosis **82**
  - Treatment **82**
  - Control and Prevention **82**
  - Chikungunya Infection in Pregnancy **83**

17. Avian Influenza (Bird Flu) 84

JK Dutta

  - Virus **85**
  - Character **85**

- – Current Outbreak **85**
- – Clinical Manifestations **86**
- • Drugs **86**
  - – Zanamivir (Relenza) **86**
  - – Oseltamivir (Tamiflu) **86**
  - – Preventive Measures **87**

18. Hantavirus Pulmonary Syndrome 88
JK Dutta
- – History **88**
- – Clinical Features **88**
- – Treatment **89**
- – Diagnosis **89**
- – Prevention **89**

19. Japanese Encephalitis and Other Viral Encephalitis 90
JK Dutta
- – Global Incidence of Viral Encephalitis **91**
- – Etiology and Epidemiology **91**
- – Scenario in India **91**
- – Clinical Features **92**
- – Laboratory Diagnosis **92**
- – Prevention and Control **93**
- – Other Neuro-viruses of Clinical Importance **93**
- – Arenaviridae **93**
- – Bunyaviridae **93**
- – Phleboviruses **93**
- – Coronaviridae **94**
- – Flaviviridae **94**
- – Herpetoviridae **94**
- – Paramyxoviridae **94**
- – Enteroviruses **94**
- – Rhabdoviridae **94**
- – Alphavirus **94**
- – Rubivirus **94**
- – Kyasanur Forest Disease Virus **95**

20. Hepatitis C 96
JK Dutta, Madhumala Giri
- – Prevalence **96**
- – Transmission **96**
- – Clinical Features **96**
- – Diagnosis **97**
- – Treatment and Prevention **97**

21. Ebola Hemorrhagic Fever, Rift Valley Fever and Nipah Virus Infection 98
JK Dutta
- – Ebola Hemorrhagic Fever **98**
- – Virus **98**

– Clinical Manifestation **98**
- Rift Valley Fever **99**
  – Treatment **99**
  – Prevention **99**
- Nipah Virus Infection **99**

22. Rabies in Canada and USA 100
JK Dutta
- Rabies in Canada **100**
  – History **100**
  – Laboratory Investigation **100**
- Rabies in USA: Past and Current Status **100**
  – Current Status (2000s) **101**
  – Rabies in 2004 **102**
  – A Case of Recovery in Wisconsin **102**

23. Dengue Fever 103
JK Dutta
  – Etiology **103**
  – Epidemiology **103**
  – First Cases of Dengue in Americas **104**
  – Clinical Features **104**
  – Diagnosis **104**
  – Treatment **104**
  – Prevention **105**

24. Malaria: A Re-emerging Infection in USA 106
JK Dutta
- Re-emergence of Malaria in USA **106**
  – Diagnosis of Malaria **107**
  – Treatment and Chemoprophylaxis **107**

25. Emerging Therapy for a Re-emerging Disease: Combination Therapy for Malaria—A Brief Outline 109
TK Dutta
- Antimalaria Drugs **109**
  – Uncomplicated *P. Falciparum* Malaria **110**
  – Complicated or Severe *Falciparum* Malaria **110**

26. Hydatidosis/Cystic *Echinococcosis* 112
Amitabh Giri, Madumala Giri, BK Giri
- Introduction **112**
  – Distribution **112**
  – History, Mode of Infection and Pathogenesis **112**
  – Clinical Features **113**
  – Diagnosis **115**
- Management **117**
  – Surgery **117**

- Control And Prevention **118**
- Conclusion **118**

27. *Taenia solium* Cysticercosis in Man and Animals 119
SC Parija, D Kumar, PS Sahu
- Introduction **119**
- History **120**
- Epidemiology **120**
  - Worldwide Prevalence **120**
  - Prevalence in India **121**
  - Economic Impact **121**
  - Life Cycle **121**
  - Symptoms **123**
  - Diagnosis **125**
  - Treatment **127**
  - Vaccination **129**
  - Control **129**
- Conclusion **130**

28. Lymphatic Filariasis–Revisited 135
SP Pani, LK Das
- Introduction **135**
- History of the Disease **135**
- The Pathogen **136**
- The Vectors **136**
- Pathology and Pathogenesis **136**
- Diagnosis of Lymphatic Filariasis **137**
  - Clinical Diagnosis **137**
  - Acute Filarial Chyluria (AFC) **139**
  - Involvement of Limbs **140**
- Parasitological Diagnosis **142**
  - Finger Prick Method **142**
  - Membrane Filtration Technique **143**
  - Concentration Technique (Knott's) **143**
- Ultrasound Method of Detecting of Adult Worms **144**
- Immunodiagnosis **144**
  - Detection of Antibodies **144**
- Molecular Diagnosis **145**
- Diagnosis in Vectors **146**
  - Manual Dissection for L3 Larval Stage of Parasite **146**
  - PCR Based Detection of Infection in Vectors **146**
- Epidemiology and Public Health **146**
  - Filariasis Problem in India **146**
  - Prevalence, Incidence and Distribution **147**
  - Trend of Filariasis Over Course of Time **147**
- Management **148**
  - Surgical Management of Lymphedema **152**
- Towards Elimination of Lymphatic Filariasis (ELF) in India **153**

– Recent Research Findings **154**
– Objectives of ELF **155**
– The Salient Aspects of ELF Strategy **155**
– Transmission Control **155**
– Morbidity Control **155**

29. Cryptosporidiosis and Cyclosporiasis 159
JK Dutta
- Cryptosporidiosis **159**
  – Mode of Infection **159**
  – Clinical Features **159**
  – Diagnosis **160**
  – Treatment **160**
  – Prevention **160**
- Cyclosporiasis **160**
  – Clinical Features **160**
  – Diagnosis **160**
  – Treatment **161**
  – Prevention **161**

30. West Nile Virus, Marburg Virus, Legionellosis 162
JK Dutta
- West Nile Virus **162**
- Virus **162**
- Clinical features **162**
- Marburg Virus **162**
  – Treatment **163**
- Legionellosis **163**
  – Etiology **163**
  – Clinical Features **163**
  – Diagnosis **164**
- Treatment **164**

31. Lyme Disease and Babesiosis 165
JK Dutta
- Lyme Disease **165**
  – Etiology **165**
  – Clinical Features **165**
  – Treatment **166**
- Babesiosis **166**
  – Clinical Features **166**
  – Complications **166**
  – Treatment **166**

32. Creutzfeldt-Jakob Disease 168
JK Dutta
- Etiology **168**
  – Classification **169**
  – Sporadic CJD (sCJD) **169**

- – Iatrogenic CJD **169**
- – Familial CJD **169**
- – Variant Creutzfeldt-Jakob Disease (vCJD) **169**
- – CJD cases in India **170**
- – Diagnosis **170**
- – Treatment **171**
- – Prevention **171**

33. HIV/TB Coinfection 173

T Talukdar

- Introduction **173**
- How HIV and TB Affects Each Other **174**
- Challenges in Diagnosing TB in the Coinfected **175**
  - – Clinical Presentation **175**
- Other Conditions Mimicking Pulmonary TB in the HIV Infected **176**
- Extrapulmonary Tuberculosis **177**
- Drawback of Sputum Microscopy **178**
- Dillemas in Chest Radiology **178**
- Mantoux Test **179**
- Treating HIV/TB Coinfection **179**
- Antitubercular Treatment **180**
- Antiretroviral Treatment **180**
  - – Drug-Drug Interaction **181**
- Overlapping Drug Toxicity **182**
- Immune Reconstitution Inflammatory Syndrome **183**
- Role of Corticosteroids in HIV-TB Coinfection **183**
- Multidrug Resistant TB and HIV Coinfection **184**
- Chemoprophylactic Treatment **184**
  - – BCG Vaccination **184**
- Joint HIV/TB Action Plan **185**
- Conclusion **185**

34. Sexually Transmitted Diseases in India: Historical Aspects and Emerging Trends (Except HIV Infection) 186

DM Thappa

- Introduction **186**
  - – Origin of STDs **187**
  - – Syphilis **187**
  - – Gonorrhea **188**
  - – Chancroid **188**
  - – Donovanosis **189**
  - – Lymphogranuloma Venereum **189**
  - – Other STDs **189**
  - – Changing Trends of STDs/STIs **190**
  - – Global Trends of STDs **190**
  - – Current Status of STDs in India **191**
  - – Emerging STI Scenario **195**
  - – Future Directions **195**

Section C: Appendices

Appendix 1 : Important Events in the History of Communicable Diseases **199**
Appendix 2 : Emerging and Re-emerging Pathogens **200**
Appendix 3 : Prevention of Cholera **201**
Appendix 4 : Prevention of Water-borne Infections **202**
Appendix 5 : Prevention of Food-borne Infections **203**
Appendix 6 : Prevention of Rodent-borne Infections **204**
Appendix 7 : Prevention of Bite by Mosquitoes **205**

Index *207*
