Contents

SECTION ONE: INTRODUCTION

1. Introduction 3

SECTION TWO: ASSESSMENT

2. Assessment of Surgical Emergencies
Make the Patient Lie Down Comfortably 7
Elicit a Quick History 8
– Make a Thorough Clinical Examination 8
– Come to a Quick Working Clinical Diagnosis 10
– Ask for Essential Meaningful Investigations 10
– Admit the Patient where Thought to be Required 11
– Put the Patient in Intensive Care Whenever Required 11
– Collect Investigation Reports at the Earliest 11
– Start Emergency Treatment 11
– Ask for Expert Opinions 12

SECTION THREE: CRITICAL CARE

3. Critically Ill Patient and Critical Care
Cardiac Support 15
Respiratory Support 15
Inotropic Support 16

4. Shock
Hypovolemic Shock 17
– Treatment of Hypovolemic Shock 18
Septic Shock 18
– Symptoms and Signs 18
– Pathogenesis 18
– Treatment 19
Anaphylactic Shock 19
– Incidence and Etiology 19
– Pathogenesis 19
– Symptoms and Signs 19
– Treatment 20
Cardiogenic Shock 20
Neurogenic Shock 20

5. Acute Respiratory Distress Syndrome
– Incidence and Etiology 21
– Pathogenesis 21
– Clinical Presentation 21
– Relevant Investigations 21
– Treatment 22

SECTION FOUR: TRAUMA

6. Polytrauma
Introduction 25
Preparation 25
– Prehospital Communication 25
Trauma Reception Team 26
– Receiving the Patient 27
– Primary Survey and Resuscitation 27
– Airway and Cervical Spine Control 27
– Breathing 28
– Circulation and Hemorrhage Control 29

– Recognition and Assessment of Hypovolemia 29
– Fluid Resuscitation 30
– Disability 30
– Exposure 30
Secondary Survey 30
Clinical Evaluation 31
– Eliciting History 31
– Physical Examination 31
– Scalp 31
– Neurological State 31
– Base of Skull 31
– Neck 32
– Eyes 32
– Face 32
– Thorax 32
– Abdomen 33
– Extremities 33
Definitive Care 33
7. Head Injuries
Brain Injury 34
Fractures of Skull 36
– Symptoms and Signs 36
CSF Fistulae 39
Scalp Injuries 39
8. Facial Injuries
Fractures of Midfacial Skeleton 41
Fractures of Mandible 42
– Clinical Presentation 43
– Relevant Investigations 45
– Treatment 45
9. Spine and Spinal Cord Injuries
Injuries to Bony and Ligamentous Spine 46
– Incidence and Etiology 46
– Symptoms 46
– Signs 47
– Relevant Investigations 47
– Treatment 48
Injuries of the Spinal Cord 48
– Incidence and Etiology 48
– Symptoms and Signs 48
– Relevant Investigations 49
– Treatment 49
10. Thoracic Injuries
Rib Fractures 50
– Incidence and Etiology 50
– Symptoms 50
– Signs 51
– Relevant Investigations 51
– Treatment 51
Flail Chest 53
– Incidence and Etiology 53
– Symptom 54
– Sign 54
– Relevant Investigations 54
– Treatment 54
Sternal Fracture 54
– Incidence and Etiology 54
– Symptom 54
– Sign 55
– Relevant Investigations 55
– Treatment 55
Pneumothorax 55
– Incidence and Etiology 55
– Symptoms 56
– Signs 56
– Relevant Investigations 56
– Treatment 58
Surgical Emphysema 58
– Incidence and Etiology 58
– Pathogenesis 59
– Symptoms and Signs 59

– Relevant Investigations 59
– Treatment 59
Hemothorax 59
– Incidence and Etiology 59
– Symptoms 60
– Signs 60
– Relevant Investigations 60
– Treatment 61
Pulmonary Contusion/laceration 61
– Incidence and Etiology 61
– Symptoms and Signs 61
– Relevant Investigations 61
– Treatment 62
Injuries of Thoracic Aorta 62
– Incidence and Etiology 62
– Symptom 63
– Signs 63
– Relevant Investigations 63
– Treatment 64
Injuries of Myocardium 64
– Incidence and Etiology 64
– Symptoms 64
– Signs 64
– Relevant Investigations 65
– Treatment 65
Esophageal Injuries 65
– Incidence and Etiology 65
– Symptoms 65
– Signs 65
– Relevant Investigations 65
– Treatment 66
Diaphragmatic Injuries 66
– Incidence and Etiology 66
– Symptoms and Signs 67
– Relevant Investigations 67
– Treatment 67

11. Abdominal Injuries
Closed Injuries 68
Open Injuries 69
– Symptoms and Signs 69
Injuries of Liver 69
– Incidence and Etiology 69
– Symptoms and Signs 70
– Relevant Investigations 70
– Treatment 70
Injuries of Spleen 72
– Incidence and Etiology 72
– Symptoms 72
– Signs 72
– Relevant Investigations 73
– Treatment 74
Injuries of Mesentery 74
– Incidence and Etiology 74
– Symptoms 74
– Sign 75
– Relevant Investigations 75
– Treatment 75
Injuries of Duodenum 75
– Incidence and Etiology 75
– Symptoms and Signs 75
– Relevant Investigations 75
– Treatment 76
Injuries of Small Intestine 76
– Incidence and Etiology 76
– Clinical Presentation 76
– Relevant Investigations 76
– Treatment 77
Injuries of Large Intestine 77
– Incidence and Etiology 77
– Symptoms 77
– Signs 77
– Relevant Investigations 77
– Treatment 77

Abdominal Compartment Syndrome 78
– Incidence and Etiology 78
– Pathogenesis 78
– Symptoms 78
– Signs 78
– Relevant Investigations 78
– Treatment 78
12. Urological Trauma
Renal Injuries 79
– Incidence and Etiology 79
– Symptom 79
– Signs 79
– Relevant Investigations 80
– Treatment 80
Ureteric Injuries 80
– Incidence and Etiology 80
– Symptom and Sign 81
– Relevant Investigation 82
– Treatment 82
Urinary Bladder Injuries 82
– Incidence and Etiology 82
– Symptoms 83
– Signs 83
– Relevant Investigations 83
– Treatment 84
Urethral Injuries 84
– Incidence and Etiology 84
– Symptom 84
– Sign 84
– Relevant Investigation 84
– Treatment 85
13. Male Genital Injuries
Injuries of Penile Skin 86
– Incidence and Etiology 86
– Symptom 86
– Sign 86
– Relevant Investigation 86
– Treatment 86
Fracture Penis 87
– Incidence and Etiology 87
– Symptoms and Signs 87
– Relevant Investigation 88
– Treatment 88
Scrotal Laceration 88
– Incidence and Etiology 88
– Symptom 89
– Signs 89
– Relevant Investigation 89
– Treatment 89
14. Female Genital Injuries
Coital Injuries 90
– Incidence and Etiology 90
– Symptom 90
– Signs 90
– Relevant Investigations 90
– Treatment 90
Injuries during Childbirth 91
– Incidence and Etiology 91
– Clinical Presentation 91
– Relevant Investigations 91
– Treatment 91
15. Hand Injuries
– Incidence and Etiology 92
– Clinical Presentation 92
– Relevant Investigations 95
– Treatment 95

SECTION FIVE: ORGANS AND SYSTEMS

Part I: Oral Cavity
16. Acute Odontogenic Infections
– Incidence and Etiology 99
– Pathogenesis 99

– Symptoms and Signs 100
– Relevant Investigations 100
– Treatment 100

Part II: Head and Neck

17. Acute Suppurative Sialadenitis
– Incidence and Etiology 101
– Clinical Presentation 101
– Relevant Investigation 103
– Treatment 103

18. Ludwig's Angina
– Incidence and Etiology 104
– Pathogenesis 104
– Symptoms 104
– Signs 104
– Relevant Investigation 105
– Treatment 105

Part III: Thorax

19. Acute Mediastinitis
– Incidence and Etiology 106
– Clinical Presentation 107
– Relevant Investigations 107
– Treatment 107

20. Acute Pleuritis
– Incidence and Etiology 108
– Symptom 108
– Sign 108
– Relevant Investigations 108
– Treatment 108

21. Pleural Effusion
– Incidence and Etiology 109
– Symptom 109
– Signs 110
– Relevant Investigations 110
– Treatment 111

22. Acute Empyema Thoracis
– Incidence and Etiology 112
– Symptom 112
– Signs 112
– Relevant Investigations 112
– Treatment 113

23. Spontaneous Pneumothorax
– Incidence and Etiology 114
– Symptom 114
– Sign 114
– Relevant Investigations 114
– Treatment 115

24. Foreign Bodies in the Respiratory Tract
– Incidence and Etiology 116
– Pathogenesis 116
– Symptoms 117
– Signs 117
– Relevant Investigations 117
– Treatment 117

25. Suppurative or Aspiration Pneumonia
– Incidence and Etiology 118
– Pathogenesis 118
– Symptoms 118
– Sign 118
– Relevant Investigation 119
– Treatment 119

26. Hospital Acquired Pneumonia
– Incidence and Etiology 120
– Symptoms 120
– Signs 120
– Relevant Investigations 120
– Treatment 120

27. Acute Lung Abscess
– Incidence and Etiology 121
– Symptoms 121
– Sign 122

– Relevant Investigations 122
– Treatment 122
28. Pulmonary Embolism
– Incidence and Etiology 123
– Symptoms and Signs 123
– Relevant Investigations 124
– Treatment 124

Part IV: Breast
29. Breast Hematoma
– Incidence and Etiology 125
– Symptoms 125
– Sign 125
– Relevant Investigations 125
– Treatment 125
30. Acute Breast Abscess
– Incidence and Etiology 126
– Symptoms 126
– Signs 126
– Relevant Investigations 127
– Treatment 127

Part V: Spine
31. Degenerative Diseases of Disk and Facet Joints
– Incidence and Etiology 128
– Symptoms and Signs 128
– Relevant Investigations 129
– Treatment 129
32. Spondylolisthesis
– Incidence and Etiology 130
– Symptoms 130
– Signs 130
– Relevant Investigations 131
– Treatment 132

Part VI: Gastroenterology
33. Acute Abdomen
Introduction 133
Pain 134
– Nature of Pain 134
– Shift, Migration and Referred Pain 135
– Effects of Movements, Food or Habits 136
Vomiting 136
Acute Upper Abdominal Pain 138
– Abdomen 140
– Relevant Investigations 142
– Treatment Plan 143
Acute Lower Abdominal Pain 143
– Treatment Plan 147
34. Acute Liver Abscess
– Incidence and Etiology 148
– Pathogenesis 148
– Symptoms 148
– Signs 148
– Differential Diagnosis 149
– Relevant Investigations 149
– Treatment 149
35. Acute Cholecystitis
– Incidence and Etiology 150
– Pathogenesis 150
– Complications 150
– Symptoms 150
– Signs 151
– Differential Diagnosis 151
– Relevant Investigations 151
– Treatment 151
36. Acute Cholangitis
– Incidence and Etiology 153
– Pathogenesis 154
– Symptoms 154

– Signs 154
– Relevant Investigations 154
– Treatment 154

37. Primary Sclerosing Cholangitis
– Incidence and Etiology 157
– Clinical Presentation 157
– Relevant Investigations 157
– Treatment 158

38. Splenic Abscess
– Incidence and Etiology 159
– Pathogenesis 159
– Symptoms 159
– Sign 159
– Relevant Investigation 159
– Treatment 160

39. Acute Hemorrhagic Pancreatitis
– Incidence and Etiology 161
– Pathogenesis 162
– Symptoms 163
– Signs 163
– Relevant Investigations 164
– Treatment 166

40. Acute Appendicitis
– Incidence and Etiology 167
– Pathogenesis 167
– Symptoms 168
– Signs 168
– Relevant Investigations 171
– Treatment 172

41. Acute Mesenteric Lymphadenitis
– Incidence and Etiology 173
– Pathogenesis 173
– Symptoms 173
– Signs 173
– Relevant Investigations 174
– Treatment 174

42. Acute Colonic Diverticulitis
– Incidence and Etiology 175
– Pathogenesis 175
– Symptoms 176
– Signs 176
– Relevant Investigations 176
– Treatment 177

43. Acute Meckel's Diverticulitis
– Incidence and Etiology 178
– Symptom 179
– Sign 179
– Differential Diagnosis 179
– Relevant Investigations 179
– Treatment 179

44. Acute Solitary Cecal Diverticulitis
– Incidence and Etiology 180
– Symptom 180
– Sign 180
– Relevant Investigations 180
– Treatment 180

45. Acute Ulcerative Colitis
– Incidence and Etiology 181
– Symptoms 181
– Signs 181
– Relevant Investigations 181
– Treatment 182

46. Acute Intestinal Obstruction
– Symptoms 184
– Signs 184
– Relevant Investigations 184
– Treatment 185

47. Gallstone Ileus
– Incidence and Etiology 186
– Symptoms 186
– Signs 186
– Relevant Investigations 186
– Treatment 187

48. Acute Intussusception
– Incidence and Etiology 188
– Symptoms 190
– Signs 190
– Relevant Investigations 190
– Treatment 191
49. Swallowed Foreign Bodies
– Incidence and Etiology 192
– Symptoms 192
– Signs 192
– Relevant Investigations 192
– Treatment 193
50. Perforated Bowel Pathologies
– Differential Diagnosis 195
– Relevant Investigations 195
– Treatment 196
51. Intestinal Strictures
– Incidence and Etiology 197
– Symptoms 197
– Signs 197
– Relevant Investigations 197
– Treatment 197
52. Bands and Adhesions
– Incidence and Etiology 198
– Symptoms and Signs 199
– Relevant Investigations 199
– Treatment 199
53. Enteroliths / Food Bolus
– Incidence and Etiology 200
– Symptoms and Signs 200
– Relevant Investigations 200
– Treatment 200
54. Volvulus
Sigmoid Volvulus 201
– Incidence and Etiology 201
– Pathogenesis 201
– Symptoms 201
– Signs 201
– Relevant Investigations 202
– Treatment 202
Cecal Volvulus 202
– Incidence and Etiology 202
– Clinical Presentation 202
– Relevant Investigations 203
– Treatment 203
Volvulus of the Midgut 203
– Incidence and Etiology 203
– Symptom 203
– Signs 203
– Relevant Investigation 203
– Treatment 203
Gastric Volvulus 203
– Incidence and Etiology 203
– Symptoms 204
– Signs 204
– Relevant Investigations 204
– Treatment 204
55. Intestinal Obstruction due to Hernia (Internal and External)
– Incidence and Etiology 205
– Symptoms 205
– Signs 206
– Relevant Investigations 206
– Treatment 206
56. Paralytic Ileus
– Incidence and Etiology 207
– Symptoms 208
– Sign 208
– Relevant Investigations 208
– Treatment 208
57. Torsion of Mesenteric Cyst
– Incidence and Etiology 209
– Pathogenesis 209

– Symptom 209
– Signs 209
– Relevant Investigations 210
– Treatment 210

58. Torsion of Omentum
– Incidence and Etiology 211
– Pathogenesis 211
– Symptoms 212
– Signs 212
– Relevant Investigations 212
– Treatment 212

59. Colics
– Incidence and Etiology 213
– Clinical Features 213
– Symptoms 214
– Signs 215
– Differential Diagnosis by Clinical History and Examination 215
– Relevant Investigations 215
– Radiology 216
– Treatment Plan 216

60. Gastrointestinal Hemorrhage
– Definitions 217
– Types of Gastrointestinal Hemorrhages 217
– Hematemesis and/Melena 218
– Melena 219
– Hematochezia 219
– Eliciting History 220
– Hematochezia 220
– Past History 220
– Family History 221
– Clinical Examination 221
– Abdomen 221
– Differential Diagnosis by Clinical History and Examination 222
– Relevant Investigations 223
– Treatment 224
– Surgical Treatment 225

Part VII: Anorectum

61. Acute Anal Fissure
– Incidence and Etiology 226
– Pathogenesis 226
– Symptoms 226
– Signs 227
– Relevant Investigation 228
– Treatment 228

62. Anorectal Abscess
– Incidence and Etiology 229
– Pathogenesis 230
– Symptoms 230
– Signs 231
– Relevant Investigations 231
– Treatment 231

63. Hemorrhoids
– Incidence and Etiology 232
– Symptoms 232
– Signs 234
– Relevant Investigations 234
– Treatment 234

64. Perianal Hematoma
– Incidence and Etiology 235
– Pathogenesis 235
– Symptoms 235
– Sign 235
– Relevant Investigation 235
– Treatment 236

65. Prolapse of Rectum
– Incidence and Etiology 237
– Pathogenesis 237
– Symptoms 237
– Signs 238

– Relevant Investigations 238
– Treatment 238

Part VIII: Vascular System

66. Acute Limb Ischemia
– Incidence and Etiology 239
– Symptoms 240
– Signs 240
– Relevant Investigations 241

67. Acute Intestinal Ischemia
– Incidence and Etiology 242
– Clinical Presentation 242
– Relevant Investigations 242
– Treatment 243

68. Leaking or Dissecting Aortic Aneurysm
– Incidence and Etiology 244
– Clinical Presentation 244
– Relevant Investigation 244
– Treatment 245

Part IX: Urology

69. Acute Retention of Urine
– Definition 246
– Incidence and Etiology 246
– Symptoms 247
– Signs 247
– Relevant Investigations 247
– Treatment 247

70. Hematuria
– Definition 248
– Incidence and Etiology 248
– Symptoms 248
– Signs 248
– Relevant Investigations 249
– Treatment 249

71. Renal Colic
– Relevant Investigations 251
– Treatment 251

72. Ureteric Colic
– Symptoms 252
– Relevant Investigation 252
– Treatment 253

73. Acute Urethritis
– Incidence and Etiology 254
– Symptoms 254
– Sign 255
– Relevant Investigations 255
– Treatment 255

74. Acute Prostatitis
– Incidence and Etiology 256
– Symptoms 256
– Sign 256
– Relevant Investigations 256
– Treatment 256

75. Acute Prostatic Abscess
– Incidence and Etiology 257
– Symptoms 257
– Sign 257
– Relevant Investigations 257
– Treatment 257

Part X: Male Genitalia

76. Acute Scrotal Pain
– Definition 258
– Causes of Acute Scrotal Pain 258
– Symptoms 259
– Past History 259
– Signs 259
On Palpation 260
– Scrotum 260
– Testis 260

– Differential Diagnosis by Clinical History and Examination 260
– Relevant Investigations 260
– Treatment 261

77. Torsion of Testis
– Incidence and Etiology 262
– Pathogenesis 262
– Symptoms 262
– Signs 262
– Relevant Investigations 263

78. Torsion of Appendages of Testis
– Incidence and Etiology 264
– Pathogenesis 264
– Symptom 264
– Signs 264
– Relevant Investigations 265
– Treatment 265

79. Acute Epididymo-orchitis
– Incidence and Etiology 266
– Pathogenesis 266
– Symptoms 266
– Signs 266
– Relevant Investigations 267
– Treatment 267

80. Traumatic Orchitis
– Incidence and Etiology 268
– Clinical Presentation 268
– Relevant Investigation 268
– Treatment 268

81. Hematocoele
– Definition 269
– Incidence and Etiology 269
– Symptoms 269
– Signs 269
– Relevant Investigations 269
– Treatment 270

82. Pyocele
– Definition 271
– Incidence and Etiology 271
– Symptoms 271
– Signs 271
– Relevant Investigations 271
– Treatment 271

83. Idiopathic Scrotal Edema
– Incidence and Etiology 272
– Pathogenesis 272
– Symptom 272
– Signs 272
– Relevant Investigations 272
– Treatment 272

84. Acute Scrotal Abscess
– Incidence and Etiology 273
– Symptoms 273
– Signs 274
– Relevant Investigations 274
– Treatment 274

85. Fournier's Gangrene
– Incidence and Etiology 275
– Symptoms 275
– Signs 276
– Relevant Investigations 276
– Treatment 276

86. Acute Filarial Scrotum
Incidence and Etiology 277
– Clinical Presentation 277
– Relevant Investigation 278
– Treatment 278

87. Fracture Penis
– Incidence and Etiology 279
– Symptoms and Signs 279
– Relevant Investigations 280
– Treatment 280

88. Paraphimosis
- Incidence and Etiology 281
- Symptoms 281
- Signs 281
- Relevant Investigations 281
- Treatment 282

89. Priapism
- Incidence and Etiology 283
- Clinical Presentation 284
- Relevant Investigations 284
- Treatment 284

Part XI: Hernias

90. Complicated Hernias
- Definition 285
- Anatomy of the Hernial Sac 286
- Complications 287
- Symptoms 287
- Signs 287
- Relevant Investigations 287
- Treatment 287

Part XII: Gynecology

91. Acute Torsion of Ovarian Cyst
- Incidence and Etiology 288
- Pathogenesis 288
- Symptom 289
- Signs 289
- Relevant Investigations 289
- Treatment 289

92. Acute Salpingitis
- Incidence and Etiology 290
- Pathogenesis 290
- Symptoms 290
- Signs 290
- Relevant Investigations 291
- Treatment 291

93. Rupture of Lutein Cyst
- Incidence and Etiology 292
- Clinical Presentation 292
- Relevant Investigations 292
- Treatment 292

Part XIII: Pediatrics

94. Acute Intussusception
- Incidence and Etiology 293
- Pathogenesis 293
- Symptoms 293
- Signs 294
- Relevant Investigations 294
- Treatment 294

95. Congenital Pyloric Stenosis
- Incidence and Etiology 295
- Pathogenesis 295
- Symptoms 295
- Signs 295
- Relevant Investigations 295
- Treatment 295

96. Necrotizing Enterocolitis
- Incidence and Etiology 296
- Pathogenesis 296
- Symptoms 296
- Signs 296
- Relevant Investigations 297
- Treatment 297

97. Tracheoesophageal Fistula
- Incidence and Etiology 298
- Pathogenesis 298
- Symptoms 298
- Signs 298
- Relevant Investigations 298
- Treatment 299

Part XIV: Lymphatic System

98. Acute Lymphangitis
- Incidence and Etiology 300
- Clinical Presentation 300
- Relevant Investigations 301
- Treatment 301

99. Acute Viral and Bacterial Lymphadenitis
- Incidence and Etiology 302
- Symptoms 302
- Signs 302
- Relevant Investigations 302
- Treatment 303

100. Acute Filarial Lymphangitis and Lymphadenitis
- Incidence and Etiology 304
- Symptoms 304
- Signs 304
- Relevant Investigation 304
- Treatment 305

Part XV: Skin and Subcutaneous Tissues

101. Hematoma
- Incidence and Etiology 306
- Symptom 306
- Sign 307
- Relevant Investigations 307
- Treatment 307

102. Erysipelas
- Incidence and Etiology 308
- Symptoms 308
- Investigations 309
- Treatment 309

103. Furuncle
- Incidence and Etiology 310
- Symptom 310
- Signs 311
- Relevant Investigations 311
- Treatment 311

104. Cellulitis
- Incidence and Etiology 312
- Pathogenesis 312
- Symptoms 312
- Signs 312
- Relevant Investigations 313
- Treatment 313

105. Acute Pyogenic Abscess
- Incidence and Etiology 314
- Symptoms 314
- Sign 315
- Relevant Investigations 315
- Treatment 315

106. Carbuncle
- Incidence and Etiology 316
- Symptom 316
- Signs 316
- Relevant Investigations 317
- Treatment 317

107. Burns
- Definition 318
- Pathogenesis 318
- Clinical Features 318
- Metabolic Effects of Burns 322

Physical Examination 323
- Preliminaries Before Examination 323

Inspection 326
- General Examination 327
- Systemic Examination 327
- Relevant Investigations 327
- Treatment 328

108. Necrotizing Fasciitis
- Incidence and Etiology 330
- Pathogenesis 330

– Symptom 330
– Sign 330
– Relevant Investigations 331
– Treatment 331

SECTION SIX: SPECIAL PROCEDURES AND SITUATIONS

Part I: Emergency Surgical Procedures

109. Pericardial Aspiration
– Materials Required 335
– Procedure 335
– Complications 336

110. Intubation of Trachea
– Materials Required 337
– Procedure 338
– Complication of Endotracheal Intubation 338

111. Percutaneous Tracheostomy
– Advantages of Tracheostomy 339
– Indications 339
– Contraindications 339
– Materials Needed for Percutaneous Tracheostomy 340
– Procedure 340
– Complications 341

112. Cricothyroidotomy/Minitracheostomy
– Indications 342
– Contraindications 342
– Materials Required 343
– Procedure 343
– Complications 344

113. Insertion of Chest Drains
– Indications 345
– Type of Drain 345
– Site of Drain 345
– Materials Required 346
– Procedures 347

114. Passing a Nasogastric Tube
– Indications 350
– Contraindications 350
– Materials Required 350
– Procedure 350

115. Peritoneal Tap
– Materials Required 353
– Procedure 353
