Contents

Section 1: Thoracic Surgery

1. Pulmonary Function Tests in Current Perspective **3**
Chander Mohan Mittal
Physiology 3
Spirometry 4

2. Thoracic Trauma and Emergencies: An Update **16**
M Luthra
Epidemiology 16
Emergencies in Thoracic Trauma 17
Management 17
EDT (Emergency Department Thoracotomy) 20
Blunt Thoracic Injuries 21
Penetrating Thoracic Injuries 22

Section 2: Adult Cardiac Surgery

3. Percutaneous Valve Implantation **27**
Chander Mohan Mittal
Aortic Valve 27

4. Myocardial Preservation **36**
Chander Mohan Mittal
History of Myocardial Protection 36
Strategies 43

5. Aortic Diseases: Valve Conserving Surgeries **46**
Chander Mohan Mittal
Aortic Root Anatomy 46

6. Right Ventricular Function Assessment **53**
Chander Mohan Mittal
Right Ventricular (RV) Anatomy 53
Right Ventricular Coronary Blood Supply 54

Right Ventricular Function 54
Echocardiography for the Assessment of Right Ventricular Function 55
Catheterization Studies 61

7. Role of PET in Cardiovascular Diseases 63
Chander Mohan Mittal

Cardiac PET Tracers 63
Rubidium-82 Labeled Chloride 63
N-13 Labeled NH_3 64
0-15 Labeled Water 64
Cu^{62}-PTSM 64
Fluorine-18 Labeled Fluorodeoxyglucose 65
Carbon-11 Labeled Palmitate and Acetate 65

8. Transesophageal Echocardiography 71
Rajesh Chand Arya

TEE Probes 71
Standard Views 71
Aorta 74
Aortic Valve 80

Section 3: Pediatric Cardiac Surgery

9. Fontan Operation: Current Perspective 87
Chander Mohan Mittal

Original Fontan Operation 87

10. Pediatric Myocardial Preservation 94
Chander Mohan Mittal
