Contents

Section 1: Trauma in General and Injuries of the Lower Limb

1.1. Examination of Bone and Joint Injuries *2*
1.2. Open Fractures *6*
1.3. Fractures of the Pelvis *9*
1.4. Hip Dislocations 13
1.5. Fractures of the Femoral Neck *16*
1.6. Intertrochanteric Femoral Fractures *19*
1.7. Subtrochanteric Femoral Fractures *22*
1.8. Fractures of Patella *26*
1.9. Tibial Plateau Fractures 28
1.10. Ankle Injuries *30*
1.11. Tibial Pilon Fractures *37*
1.12. Talar Neck Fractures *39*
1.13. Calcaneal Fractures *41*
1.14. Tarsometatarsal (Lisfranc) Fracture Dislocation *44*
1.15. Jones Fracture *47*
1.16. Nonunion *49*

Section 2: Injuries of the Upper Limb

2.1. Fractures of the Clavicle *54*
2.2. Shoulder Dislocations *56*
2.3. Proximal Humeral Fractures *61*
2.4. Supracondylar Fractures of the Humerus *63*
2.5. Fractures of the Lateral Condyle *66*
2.6. Elbow Dislocations *68*
2.7. Monteggia Fracture-Dislocation *70*
2.8. Essex-Lopresti Fracture-Dislocation *72*
2.9. Galeazzi Fracture-Dislocation *74*
2.10. Distal Radius Fractures *76*
2.11. Scaphoid Fractures *82*
2.12. Bennett and Rolando Fractures *87*
2.13. Physeal Injuries *89*

Section 3: Spine

3.1. Spine: General Considerations *94*
3.2. Examination of Spinal Injuries *104*
3.3. Spinal Injuries, Classification and Management *113*

Section 4: Clinical Diagnosis of Peripheral Nerve and Brachial Plexus Injuries

4.1. Clinical Diagnosis of Peripheral Nerve and Brachial Plexus Injuries *126*

Section 5: Examination of a Bone Tumor

5.1. Examination of a Bone Tumor *142*

Section 6: Important Clinical Tests and Radiological Signs in Different Bone and Joint Pathologies

6.1. Important Clinical Tests and Radiological Signs in Different Bone and Joint Pathologies *156*

Section 7: Multiple Trauma

7.1. Multiple Trauma *186*

Index *193*
