Section 1: Surgery-in-General

1. **Perioperative Care..... 1**
   Jyoti Shah
   - Preoperative assessment 1
   - Identifying risk 2
   - Detecting disease 3
   - Jehovah's witnesses 4
   - Obesity 5
   - Diabetes mellitus 6
   - Perioperative management of medication 6
   - Antithrombotic therapy 7
   - Safe surgery 8
   - Preoperative fasting 8
   - Perioperative fluid replacement 9
   - Patient positioning 9

2. **Biologic and Composite Mesh for Repair 13**
   Iain Anderson
   - Biologic mesh 14
   - Composite mesh 23

3. **Perioperative Cardiopulmonary Exercise Testing for Major Abdominal Surgery 29**
   Malcolm West, Sandy Jack, Michael PW Grocott
   - Cardiopulmonary exercise testing 30

Section 2: Breast Surgery

4. **Breast Reconstruction: How do we Measure and Define Patient's Quality of Life and Satisfaction? 45**
   Anushka Chaudhry, Zoë Ellen Winters
   - Types of reconstruction 45
   - What do we mean by 'patient satisfaction?' Patient reported outcome measures 46
   - Managing expectations 49
   - Decision making: 'nothing about me without me' 50
   - Key findings of the NMBRA fourth report 51

- Adjuvant treatments and effects on HRQL after breast reconstruction 54

5. Surgery for Benign Breast Conditions 58
Christina Summerhayes, Avi Agrawal, Rachel Oeppen, Ramsey I Cutress

- Gynaecomastia 58
- Mastalgia 60
- Nipple discharge 62
- Breast sepsis 64
- Percutaneous management of benign breast lesions 66

Section 3: Facial Surgery

6. Management of Facial Paralysis 73
D Bray

- Neural techniques 74
- Regional muscle transposition 76
- Free muscle transfer 77
- Ophthalmic protection and rehabilitation 78
- Adjunctive techniques 79
- The future 80

Section 4: Gastrointestinal Surgery

7. Managing the Complications of Bariatric Surgery 83
Hamish Noble, Richard Welbourn

- Risk, risk reduction and improving outcomes 83
- Complications of gastric banding 85
- Complications of Roux-en-Y gastric bypass 90
- Complications of sleeve gastrectomy 94
- Nutritional consequences of bariatric surgery 95
- Thromboembolic complications 95
- Gallstones/bile duct stones 96

8. Metastases from Colorectal Cancer 101
Robert P Jones, Declan FJ Dunne, Graeme J Poston

- Defining resectability in colorectal liver metastases 101
- The importance of specialist multidisciplinary team input in the management of metastatic colorectal cancer 103
- Staging and selection of patients for liver surgery 104
- Technical developments in liver surgery 105
- Ablative therapies for colorectal liver metastases 105
- Chemotherapy for metastatic colorectal cancer 106

9. Ischaemic Bowel 114
Keith Gardiner, William Wallace, Kevin McElvanna

- Definition 114
- Mesenteric vasculature 114
- Aetiology of intestinal ischaemia 114

- Acute superior mesenteric ischaemia 115
- Chronic superior mesenteric ischaemia 126

10. Anal Cancer 133
Jurgen J Mulsow, P Ronan O'Connell

- Epidemiology 133
- Risk factors 133
- Screening and vaccination for anal cancer 135
- Pathology 135
- Clinical features 137
- Investigation and staging for suspected anal intraepithelial neoplasia and anal cancer 137
- Treatment 140

11. Intraoperative Radiotherapy in the Management of Locally Advanced and Recurrent Rectal Cancer 146
Mirnezami R, S Ramkumar, Bateman AR, Mirnezami AH

- Background 146
- Rationale 147
- Techniques 148
- Oncological outcomes 149
- Summary and future directions 152

12. Modern Management of Abdominal Tuberculosis 156
VK Kapoor

- Microbiology 156
- Pathogenesis 156
- Immunology 157
- Pathology 157
- Clinical features 158
- Unusual sites 159
- Acute presentation 160
- Differential diagnosis 160
- Investigations 161
- Coinfection with HIV 164
- Coexistence with cancer 165
- Antitubercular therapy 165
- Surgery 165
- Outcome 167

Section 5: Vascular Surgery

13. Management of the Diabetic Foot 171
K Mylankal, CP Shearman

- Epidemiology 171
- Pathogenesis 172
- Clinical presentation and examination 172
- Diagnostic investigations 174
- Treatment of the diabetic foot 176

14. Randomised Clinical Trials and Meta-analyses in Surgery …. 183
Siân Pugh

- General 183
- Oesophagogastric 184
- Hepatopancreatobiliary 186
- Colorectal 188
- Breast and endocrine 190
