Contents

Section 1
Anatomy and Physiology of the Intervertebral Disc

1. **Anatomy and Structure of the Intervertebral Disc** 3
   Alok D Sharan, Xuan Qiu, Ferdinand Chan, Simon Y Tang, Alexander R Vaccaro

2. **Biomechanics of Intervertebral Disc** 8
   Andrew K Simpson, Christopher M Bono

3. **Vascular Anatomy of the Endplates and Nutrient Supply of the Disc** 15
   S Rajasekaran, Rishi M Kanna, Ajoy P Shetty

4. **Muscular Anatomy of the Spine** 27
   Bhavuk Garg, Ratnav Ratan

5. **Imaging of the Intervertebral Disc** 35
   Emmanuel N Menga, Ashvin K Dewan, A Jay Khanna

6. **Animal Models for Disc Degeneration** 44
   Hendrik-Jan C Kranenburg, Keita Ito, Marianna A Tryfonidou, Lucas A Smolders Niklas Bergknut, F Cumhur Öner, Herman AW Hazewinkel, Wouter JA Dhert, Björn P Meij

7. **Animal Models of Back Pain and Sciatica** 52
   Eric H Ledet, Zhaomin Zheng, Jianru Wang

8. **Animal Models for Spinal Deformity and their Role in the Development of Surgical Nonfusion AIS Treatments** 61
   Ashish Patel, Dante Leven, Virginie Lafage, Frank Schwab

Section 2
Pathophysiology of the Intervertebral Disc

9. **Pathophysiology of Disc Degeneration** 73
   William Slikker III, Howard S An

10. **Genetics of Disc Degeneration** 80
    William R Spiker, Alpesh A Patel

11. The Role of Inflammation in Disc Degeneration 85
Tiffany R Dugan, James D Kang

12. Understanding the Pathways of Pain 95
Sayed E Wahezi, Regina Hanstein, David C Spray

13. Treatment Strategies to Regenerate the IVD 108
Christopher K Kepler, D Greg Anderson

Section 3
The Science of Spinal Instrumentation

14. Implant Properties of Spinal Instrumentation 121
Joseph S Cheng, Cyrus Wong, Ahmed Shakir

15. Biomechanics of Spinal Instrumentation 128
Tarun Bhalla, Andres Maldonado, Edward C Benzel

16. Biomechanics of Cervical Spine Instrumentation 139
Evan Baird, Sheeraz Qureshi

17. Biomechanics of Thoracolumbar Instrumentation 149
Mei Wang, Raj D Rao

18. Biomechanics of Lumbar Interbody Fusion 156
Steven J Fineberg, Matthew Oglesby, Miguel Pelton, Kern Singh

19. Biomechanics of Motion-Preserving Implants 163
Allen Carl, Walter Jacobsen, Shiveindra Jeyamohan, Dean Papaliodis
Timothy T Roberts, Isabelle Citone, John German, William Lavelle

20. Biomechanics of Interspinous Process Devices 175
Kartik Shenoy, Abhay Nene

21. Biomechanics of Cement Augmentation 180
Brian Braaksma, Jeffrey M Spivak

22. Implant Design and Testing 196
Thomas J Errico, Antonio Valdevit

23. Navigating the Regulatory and Reimbursement Pathways 205
Andrew H Milby, Kevin B McGowan, Joshua D Auerbach

24. The Patent Process 213
Chengyuan Wu, Srinivas Prasad

Section 4
The Science of Spinal Interventions

25. Pharmaceutical Management of Spine Pain 225
Andrew I Gitkind, Isaac Syrop, Antigone Aryriou, Adam L Wollowick

26. Biochemistry of Epidural Steroid Injections 232
Edwin Numsuwan, Allan L Brook

27. Basic Science of Discography and Provocative Testing 243
Jason M Cuellar, Eugene J Carragee

28. The Use of Stem Cells in Spine Surgery 252
Jason H Ghodasra, Michael S Nickoli, Wellington K Hsu

29. Biology of Spinal Fusion 262
Praveen K Yalamanchili, Scott D Boden

30. Bone Graft Extenders 268
William D Long III, Peter G Whang

Index 275
