Contents

Section 1: BASIC DENTAL MATERIALS SCIENCE

1. Properties of Tooth Structure 3
- *Crown and Root 3*
- *Enamel 3*
- *Dentin 3*
- *Pulp 3*
- *Cementum 3*
- *Periodontal Ligament 4*
- *Properties 4*

2. Standards of Dental Materials 6
- *Selection of Dental Materials 6*
- *Evaluation of Materials 6*
- *American Dental Association (ADA) 6*
- *International Standards 7*
- *Other Standards and Organizations 8*

3. General Properties of Dental Materials 9
- *Liquids 9*
- *Solids 9*
- *Change of State 9*
- *Interatomic Bonds 10*
- *Crystalline Structure 11*
- *Noncrystalline Structure 11*

Surface Properties 12
- *Adsorption 12*
- *Absorption 13*
- *Sorption 13*
- *Diffusion 13*
- *Surface Tension 13*
- *Wetting 14*
- *Angle of Contact 14*
- *Adhesion 15*
- *Cohesion 15*

Mechanical Properties 15
- *Stress 16*
- *Strain 16*
- *The Stress-strain Relationship or S-S Curve 17*
- *Proportional Limit 18*
- *Elastic Limit 18*
- *Yield Strength (Proof Stress) 18*
- *Poisson's Ratio 19*
- *Modulus of Elasticity (MOE) or Elastic Modulus 19*
- *Flexibility 19*
- *Resilience (Cushion Like) 20*
- *Ductility and Malleability 20*
- *Elongation 21*
- *Toughness 21*
- *Brittleness 21*
- *Ultimate Stress 21*
- *Breaking Stress 21*
- *Strength 22*
- *Types of Strength 22*
- *Tensile Strength 22*
- *Fatigue Strength 22*
- *Shear Strength 23*
- *Impact Strength 23*
- *Tear Strength 23*
- *Hardness 23*

Thermal Properties 26
- *Melting and Freezing Temperature 26*
- *Heat of Fusion 26*
- *Thermal Conductivity 27*
- *Specific Heat 27*
- *Thermal Diffusivity 27*
- *Coefficient of Thermal Expansion (COTE) 28*

Electrical Properties 29
- *Electrical Conductivity or Resistivity 29*
- *Dielectric Constant 29*
- *Electromotive Force 29*
- *Galvanism 30*
- *Zeta Potential 31*

Rheological Properties 31
- *Flow 31*
- *Creep 32*
- *Viscosity 32*
- *Viscoelasticity 33*

Optical Properties 33
- *Color 34*
- *Colors and Color Mixing 35*
- *Pigmentation 36*
- *Measurement of Color 36*
- *Light and Interfaces 36*
- *Metamerism 38*
- *Fluorescence 38*

Biocompatibility 38
- *Biomaterials 39*
- *Concept of Biocompatibility 39*
- *Factors Influencing the Biocompatibility Aspects/Responses 39*
- *Requirements of Biocompatibility 39*

- *Tests for Evaluation of Biocompatibility 39*
- *Allergic Response to Dental Materials 41*

Tarnish and Corrosion 43

- *Tarnish 43*
- *Corrosion 43*
- *Classification of Corrosion 43*

4. Chemistry of Synthetic Resins 48

- *Polymer 48*
- *Monomer 48*
- *Polymerization 48*
- *Classification of Polymers 48*
- *Types of Polymerization 50*
- *Homopolymers and Copolymers 55*
- *Cross-linking 56*
- *Plasticizers 56*

5. Physical Metallurgy 58

- *Characteristic Properties of Metals 58*
- *Metalloid 58*
- *Metallic Bond 58*

Solidification and Microstructure of Metals 59

- *Grain Size and Shape 61*

Deformation of Metals 61

- *Crystal Geometry 61*
- *Lattice Imperfections 61*
- *Strain Hardening or Work Hardening (Method of Strengthening Metals) 62*
- *Annealing (Stress Relieving Heat Treatment) 63*
- *Cast Structure 64*
- *Wrought Structure 65*

Constitution of Alloys 65

- *Classification of Alloys 65*
- *Solid Solutions 65*

Constitutional Phase Diagrams/Thermal Equilibrium Phase Diagrams 67

- *Cooling Curve Method or Time-temperature Cooling Curve 67*
- *Solid Solutions Phase Diagrams 68*
- *Coring or Nonequilibrium Solidification 68*
- *Homogenization or Homogenizing Anneal 69*
- *Eutectic Alloys 69*
- *Intermetallic Compounds 70*
- *Peritectic Alloys 70*
- *Solid State Reactions 70*
- *Heat Treatment 71*
- *Quenching 71*
- *Order Hardening (Order-disorder Transformation) 71*
- *Precipitation Hardening or Age Hardening 71*
- *Heat Treatment of Gold Alloys 72*

Section 2: CLINICAL DENTAL MATERIALS

6. Restorative Materials 77

- *Restoration and Restorative Materials 77*
- *Requirements and Classification 77*

Dental Amalgam 78

- *Amalgam 79*
- *History 79*
- *Classifications of Amalgam 79*
- *Dispension 80*
- *Manufacturing of Alloy Powder 80*
- *Chemical Reactions for Individual Alloy Mixtures 81*
- *Physical and Mechanical Properties 83*
- *Thermal Properties 86*
- *Mercury Toxicity 86*
- *Technical Considerations in Manipulation of Amalgam 86*
- *Modified Amalgams 91*

Dental Cements 91

- *Classification 91*
- *Ideal Requirements of Restorative Cement 92*
- *Zinc Oxide Eugenol Cement 93*
- *Zinc Phosphate Cement 99*
- *Modifications of Zinc Phosphate Cement 103*
- *Silicate Cements 104*
- *Zinc Silicophosphate Cement 108*
- *Zinc Polycarboxylate Cements 109*
- *Glass Ionomer Cements 113*
- *Modifications 119*
- *Resin Cements 123*
- *Cavity Lining Agents and Cement Bases 126*

Composite Resins (Tooth Colored Restorative Materials) 130

- *Evolution 130*
- *Classifications 131*
- *Composition and Microstructure 131*
- *General Properties of Composites 133*
- *Conventional Composites (Traditional or Macrofilled Composites) 134*
- *Microfilled Composites 134*
- *Small Particle Composite 135*
- *Hybrid Composites 135*
- *Nanocomposites 135*
- *Acid-etch Technique 138*
- *Bonding Agents 140*
- *Enamel Bonding Agents 140*
- *Dentin Bonding Agents 140*
- *Recent Advances in Composites 144*
- *Pit and Fissure Sealants 146*

Direct Filling Gold 149
- *Characteristics of Pure Gold 149*
- *Disadvantages 149*
- *Forms of Direct Filling Gold 149*
- *Composition 149*
- *Gold Foil 150*
- *Electrolytic Precipitate or Crystalline Gold 150*
- *Powdered Gold 151*
- *Suitability of Direct Filling Gold as a Restorative Material 153*

7. Impression Materials 158
- *Concepts Related to Impression Materials 158*
- *Requirements and Classifications 159*

Impression Compound 164
Zinc Oxide Eugenol Impression Paste 169
Aqueous Elastic Impression Materials 175
- *Hydrocolloids 175*
- *Agar Impression Material (Reversible Hydrocolloid) 177*
- *Alginate Impression Material (Irreversible Hydrocolloid) 182*

Nonaqueous Elastomeric Impression Materials 190
- *Polysulfide Impression Material 191*
- *Condensation Polysilicone Impression Material 195*
- *Addition Polysilicone Impression Material 198*
- *Polyether Impression Materials 203*
- *Light Activated Polyether Impression Material 206*

8. Orthodontic Wires 217
- *Classifications of Orthodontic Appliances 217*
- *Requirements 217*
- *Classifications of Orthodontic Wires 217*
- *Materials 218*

9. Implant Materials 223
- *Biomaterial 223*
- *Requirements 224*
- *Types of Implants 224*
- *Metal and Alloys 225*
- *Ceramics 227*
- *Polymers 228*
- *Composites 228*

Section 3: LABORATORY DENTAL MATERIALS

10. Gypsum Products 235
- *Gypsum 235*
- *Gypsum Products 235*
- *Classification of Gypsum Products 235*
- *Manufacturing 236*
- *Setting Reaction or Chemistry 236*
- *Crystalline (Dissolution-Precipitation) Theory of Setting 236*
- *Properties 237*
- *Dimensional Changes 239*
- *Manipulation 240*
- *Impression Plaster (Type – I) 242*
- *Model Plaster or Dental Plaster (Type – II) 243*
- *Type – III (Class – I Stone/ Hydrocal/ Dental Stone) 243*
- *Die Materials 244*

11. Denture Base Resins 248
- *Requirements of Denture Base Materials 248*
- *Classification of Denture Base Materials 249*
- *Classification of Denture Base Resins 250*
- *Heat Activated Denture Base Acrylic Resins 250*
- *Chemically Activated Denture Base Resins 262*
- *Fabrication Defects of Denture 266*
- *Modified Acrylics 271*
- *Denture Repair Resins 272*
- *Artificial Teeth 280*
- *Resin Impression Trays and Tray Materials 280*
- *Stainless Steel as a Denture Base Material 282*

12. Dental Waxes 285
- *Applications 285*
- *Classification 285*
- *Inlay Waxes 287*
- *Casting Waxes 290*
- *Processing Waxes 292*
- *Impression Waxes 293*

13. Investment Materials 295
- *Ideal Properties Required for an Investment 295*
- *General Composition 295*

- *Classification of Investments 296*
- *Gypsum Bonded Investments 296*
- *Phosphate Bonded Investments 300*
- *Ethyl Silicate Bonded Investments 302*
- *Die Stone Investment Combination 303*

14. Dental Casting Alloys (Casting Gold and Base Metal Alloys) 304
- *History of Dental Casting Alloys 304*
- *Terminology 304*
- *Ideal Properties of Casting Alloys 305*
- *Classification of Dental Casting Alloys 305*

Dental Casting Gold Noble Metal Alloys 306
Base Metal Alloys 311

15. Casting Procedure for Dental Alloys 319
- *Clinical Evaluation of Casting Fit 319*
- *Casting Technique 319*

Defects in Casting 328
- *Distortion 329*
- *Rough Surface and Surface Irregularities 329*
- *Porosity 330*
- *Incomplete Casting 331*
- *Other Defects 332*

16. Dental Ceramics 333
- *Classification of Dental Ceramics 333*
- *Classification of Porcelain Crown 333*
- *Dispension 334*
- *Manufacturing of Porcelain Powder 334*
- *Structure of Porcelain 334*
- *Properties 334*
- *Methods of Strengthening Ceramics 336*
- *Manipulation 337*
- *Fabrication Defects 341*
- *Metal Ceramic Restoration or Porcelain Fused to Metal 342*
- *All Ceramic Restorations 345*
- *Classification of All-Ceramic Restorations 345*
- *Pressible Ceramics 347*
- *Infiltrated Ceramics 350*
- *Machinable Ceramics 352*

17. Mechanics of Cutting with Dental Burs 356
- *Dental Burs 356*
- *Classification of Dental Burs 358*

18. Abrasion and Polishing 360
- *Abrasion 360*
- *Polishing 365*
- *Dentifrices 368*

19. Soldering and Welding 370
- *Soldering 370*
- *Welding 370*
- *Flux 371*
- *Soldering Investment Materials 372*
- *Types of Soldering Techniques 372*
- *Methods of Welding 373*

Appendix 375
