Contents

1. Magnitude of Female Urinary Incontinence: A Health Problem **1**

Prakash Trivedi

Introduction and Definitions 1 • Risk Factors 5

2. Anatomical Aspects of Urinary Incontinence: Clinical Applications **6**

Sandeep Patil, Nishita Parekh, Prakash Trivedi

Urethral Anatomy 6 • Bladder Anatomy 11
Retropubic Space Anatomy 12
Pelvic Diaphragm Anatomy 13
Transobturator Anatomy and Anatomy of the Inner Groin 15
Supporting Ligaments and Fascia 16

3. Neuroanatomical Aspects of Lower Urinary Tract **19**

Sandeep Patil, Sarika Dodwani, Prakash Trivedi

4. Evaluation of a Patient Prior to Treatment of Urinary Incontinence and Role of Urodynamics **24**

Amita Jain

History Taking and Physical Examination 24
Referral 27 • Patient Questionnaires 27
Voiding Diaries 28 • Pad Test 29 • Urinalysis 29
Postvoiding Residual Volume 30 • Imaging 31
Other Tests 31 • Urodynamics 32
Urethral Pressure Studies 35 • Discussion 37

5. Imaging in Urinary Incontinence **42**

Sandeep Patil, Nishita Parekh, Prakash Trivedi

6. Medical Management of Urinary Incontinence **50**

Anita Patel

Types of Urinary Incontinence 51
Physiology of Continence 51 • Antimuscarinic Agents 54
Anticholinergics (Antimuscarinics) with Mixed Actions 56
Tricyclic Antidepressants 56 • Miscellaneous Agents 57
Botulinum Toxin 58
Management of Overflow Incontinence 59
Management of Mixed Urinary Incontinence 60

7. Experience of Open Burch **63**
Vivek Joshi
Modified Burch Colposuspension 63
Historical Aspect: To be Copied 63 • Steps 64
Concomitant Surgical Procedure with Burch Colposuspension 67
Operative Difficulties and their Management 67
Outcome 68 • Complications 68

8. Conventional Surgery and Biological Slings for Stress Urinary Incontinence **70**
Yugali Warade, Sarika Dodwani, Prakash Trivedi
Mechanism of Action 71 • Indications 72
Sling Materials 73 • Technique for Harvest of Rectus Fascia and Placement of Pubovaginal Sling 73
Outcomes 81 • Complications 83

9. Laparoscopic Surgery for Urinary Incontinence **87**
Prakash Trivedi, Animesh Gandhi, Sandeep Patil
Complications 87 • Discussion 88
Operative Steps 90
Laparoscopic Repair of Enterocele 93
Foley's Catheter Adaptor, Rectal Probe or CCL Trocar 96

10. Synthetic Suburethral Slings **97**
Prakash Trivedi, Animesh Gandhi, Sandeep Patil
Procedure of Tension-free Vaginal Tape/ Trivedi's SUI Tape 97
Our Experience with TVT/TSUIT 102

11. Midurethral Transobturator Sling-Tape Techniques for Stress Urinary Incontinence Surgery **104**
Prakash Trivedi, Animesh Gandhi, Yugali Warade
Primary Stress Urinary Incontinence 105
Groin Pain 118 • Dyspareunia 118
Vaginal Mesh Erosion 118

12. Newer Small Slings for Stress Urinary Incontinence **119**
Sarika Dodwani, Madhuri Gandhi, Prakash Trivedi
Indications and Patient Selection 119
Description of Various Types of Single Incision Slings 120
Surgical Techniques 121 • Outcomes 126

13. Choice of Surgery for Stress Urinary Incontinence 129
Sanjay Sinha, Rooma Sinha
Preoperative Caveats 129 • Surgical Options 129

14. Long-term Outcomes of Stress Urinary Incontinence Sling Surgery 137
A Tamilselvi, Jay Iyer, Ajay Rane
Epidemiology 137
Anterior Repair with Kelly Plication 138
Bladder Neck Suspension Procedures 138
Marshall-Marchetti-Krantz (Retropubic Urethropexy)–MMK Procedure 139 • Burch Colposuspension 139
Laparoscopic Colposuspension 140
Needle Suspension Procedures 140
Sling Procedures 141 • Periurethral Bulking Agents 144
Artificial Urinary Sphincter 144

15. Meshplasty for Correction of Stress Urinary Incontinence: Our Experience 148
RM Saraogi, Mohit Saraogi, Nishita Parekh
Principles of Meshplasty 149
Observation and Results 154

16. Voiding Dysfunction and Retention after Stress Urinary Incontinence Surgery 159
Nishita Parekh, Yugali Warade, Prakash Trivedi
Technique for Synthetic Sling Loosening in the Acute Setting (7 to 14 Days) 162
Takedown of Retropubic Synthetic Midurethral Sling at Four Months Postoperatively due to Voiding Dysfunction 163
Takedown of Rectus Fascia in Pubovaginal Sling 166
Retropubic and Vaginal Urethrolysis after Retropubic Suspension 166 • Postoperative Care after Sling Revision or Takedown 169 • Outcomes 169

17. Complications, Difficulties and Redo Procedure for Stress Urinary Incontinence Surgeries 171
Madhuri Gandhi, Sarika Dodwani, Prakash Trivedi
Laparoscopic Burch 171
Tension-free Vaginal Tape-Obturator, Trivedi Obturator Tape and Trivedi Obturator Tape Adjustable 176

Mini Arc 176 • Bulking Agents 177
Artificial Urethral Sphincter 177

18. Bulking Agents **179**
S Mahadevan
Background 179 • Indications 179
Contraindications 182
Preparation and Technique 182

19. Botulinum Toxin Injection Therapy **184**
Animesh Gandhi, Yugali Warade, Prakash Trivedi
Mechanism of Action 184 • Case Scenario 186
Botulinum Toxin Bladder Injection Technique 186
Outcomes and Complications 187

20. Sacral Nerve Stimulation **190**
Ian P Tucker
Definition 190 • Indications 190
Anatomy and Neurophysiology 190
History of Neuromodulation 191
How does Neuromodulation Work? 192
Technique of S3 Neuromodulation 192
Patient Selection 199 • Results 199
Patient Satisfaction 201 Cost-effectiveness 202
Complications 203 • Tips and Tricks 204
Who should do this Procedure? 205 • Future 205
Appendix 207

21. Artificial Urinary Sphincter in the Management of Severe Intrinsic Sphincter Deficiency Incontinence in Women **208**
Vincent Tse, Li-Tsa Koh
Nature and Mechanism of Action 208
Operative Technique 210 • Complications 212
Clinical Efficacy 213

Index *217*
