Contents

SECTION 1 Fundamentals of Pregnancy

1. Anatomy and Physiology of Female Reproductive Tract **3**
Madhuri Patil
Female Reproductive System 3
Female Breast 16
Physiology of the Menstrual Cycle 19

2. Fundamentals of Reproduction **22**
Madhuri Patil
Menstrual Cycle 22
Male Genital Tract and Spermatogenesis 27
Natural Process of Fertility 28

3. Human Placenta **33**
Parimaladevi
Placenta 33

SECTION 2 Pregnancy

4. Diagnosis of Pregnancy **41**
Parimaladevi, Biliangady Harsha
Pregnancy 41
Signs and Symptoms 41

5. Hyperemesis Gravidarum **47**
Mohini N Prasad, Vanitha
Causes 47
Risk Factors 47
Signs and Symptoms 47
Diagnosis 48
Complications 48
Management Options 49

6. Abortion **51**
Ambarisha Bhandiwad
Incidence 51
Etiology 51

Factors 51
Pathology 52
Classification 52
Signs and Symptoms 54
Differential Diagnosis 54
Investigations 54
Management 54
Septic Abortion 55
Recurrent Pregnancy Loss (Habitual Abortion) 57
Incompetent Cervical OS (Cervical Incompetence) 59

7. Ectopic Pregnancy **62**
Ambarisha Bhandiwad
Incidence 62
Pathophysiology 62
Sites of Implantation 62
Etiology and Risk Factors 64
Clinical Presentation 65
Investigations 65
Ruptured Ectopic Pregnancy Based on Severity 67
Unruptured Ectopic Pregnancy 68
Based on Most Common Sites of Ectopic Pregnancy 70
Based on Other Sites of Ectopic Pregnancy 70

8. Hydatidiform Mole (Molar Pregnancy) **72**
Ambarisha Bhandiwad
Hydatidiform Mole 72

9. Fetus In Utero **78**
Alok Kumar Debdas
Physical Disposition of Fetus In Utero 78
Obstetric Anatomy of Fetal Head 80
Dimensions of Fetal Head 82
Dynamic Anatomy of Fetus in Labor 84
Dynamic Anatomy of Fetal Heart Sound 87

10. Antenatal Care **89**
Malini KV
Aims and Objectives 89
Recent Developments 90

Normal Duration of Pregnancy 90
Timing and Frequency of Antenatal Visits 90
Procedure at First Visit 91
Examinations 92
General Physical Examination 92
Obstetric Examination 93
Investigations 100
Procedure at Subsequent Visits 100
Antenatal Advice 101
Minor Ailments during Pregnancy 103

11. Antenatal Assessment of Fetal Well-being 106
Shubha Rama Rao, Shilpashree, Padmalatha
Biochemical Methods 106
Biophysical Methods 106

12. Twin Pregnancy 113
Dakshsyanidevaru
Types 113
Genesis of Twins 113
Incidence 115
Determination of Zygosity 115
Risk Factors for Twin Pregnancy 115
Maternal Physiologic Changes 116
Maternal Complications 117
Fetal Complications 118
Diagnosis of Twin Pregnancy 120
Symptoms 120
General Examination 120
Obstetric Examination 120
Investigations 121
Differential Diagnosis 122
Management 122
Indications 123
Perinatal Morbidity and Mortality 124
Maternal Mortality and Morbidity 124

13. Bad Obstetric History **125**
Shoba L Gudi
Incidence 125
Etiological Factors 125
Investigations 125
Treatment 126
Self-assessment Questions 126

14. Antepartum Hemorrhage **127**
Shoba L Gudi
Causes 127
Placenta Previa 127
Abruptio Placentae/Placental Abruption or Accidental Hemorrhage 130

SECTION 3 Diseases in Pregnancy

15. Pregnancy-induced Hypertension **137**
Milind R Shah, Veerendrakumar, Joshi Suyajna
Classification 137
Diagnosis 138
Incidence and Etiology 139
Pathogenesis 139
Pathophysiology 140
Early Diagnosis and Prevention 141
Prediction of Pregnancy-induced Hypertension 142
Management 143
Treatment 144
Maternal Sequelae of Severe Hypertension in Pregnancy 144
Future 144

16. Anemia in Pregnancy **146**
Parimaladevi, Vidya V Bhat
Incidence 146
Classification 146
Normal Hematological Changes Occurring in Pregnancy and Concept of Physiological Anemia 146
Causes of Anemia during Pregnancy 147
Investigations in Anemia 147
Iron Deficiency Anemia 148

Megaloblastic Anemia 150
Non-megaloblastic Anemia 151
Hemolytic Anemia 151
Screening for Anemia in Pregnancy 151
Sickling Disorders 151
Thalassemia 153
Aplastic Anemia 154
Leukemia 154

17. Renal Diseases in Pregnancy 155
Ambarisha Bhandiwad
Physiological Changes 155
Chronic Renal Insufficiency 156
Pyelonephritis in Pregnancy 156
Acute Renal Failure 157

18. Cardiac Diseases in Pregnancy 162
Sunanda R Kulkarni
Impact of Maternal Heart Disease on Pregnancy 162
Physiological Changes during Pregnancy 162
Diagnosis of Cardiac Disease 163
Management during Pregnancy 164
Care during Labor 165
Management of Cardiac Failure in Cardiac Disease 165
Specific Heart Diseases during Pregnancy 165
Contraception 168
Common Causes of Death in Cardiac Disease 168
Prognosis 168

19. Diabetes in Pregnancy 169
Ambarisha Bhandiwad
Diabetogenic State in Pregnancy 169
Mechanisms of Pregnancy-induced Insulin Resistance 169
Types of Diabetes in Pregnancy 170
Carbohydrate Metabolism during Pregnancy and Diabetes 170
Blood Sugar Levels in Pregnancy 171
Complications 171
Screening for GDM 174

Gestational Glucose Intolerance 177
Management 177
Pregestational Diabetes Mellitus or Overt Diabetes 179

SECTION 4 Maternal Pelvis and Fetal Skull

20. Anatomical Basis of Labor **183**
Randhir Puri, Narendra Malhotra, Jaideep Malhotra
Pelvis 183
Fetal Skull 188
Other Features of Fetus 191

21. Contracted Pelvis **194**
Rajarajeswari S, Chithra KS
Types of Pelvis 194
Pelvic Deformities 194
Diagnosis of Cephalopelvic Disproportion 196
History 196
Examination 196
Assessment of the Pelvis 196
Contraction at Inlet 199
Contraction at Midpelvis 199
Contracted Pelvic Outlet 199
Fetal Head Assessment 199
Prognosis 201

SECTION 5 Labor

22. Normal Labor **205**
Vidya V Bhat, Prashant Joshi
Labor 205

23. Induction of Labor **214**
Reeta H Biliangady
Indications 214
Contraindications 215
Prerequisites for Induction of Labor 215
Induction of Labor 216

24. Premature Rupture of Membranes **219**
Bindu Sainath
Etiology 219
Diagnosis 219
Maternal Risks 220
Fetal Risks 220
Management 220

25. Premature Birth **221**
Bindu Sainath
Causes of Preterm Birth 221
Spontaneous and Indicated Preterm Delivery 222
Pathogenesis of Preterm Birth 222
Identification of Women at Risk for Preterm Birth 222
Diagnosis of Preterm Labor 223
Management 223

26. Prolonged Labor **226**
Bindu Sainath
Incidence 226
Etiology 226
Associated Factors 226
Classification of Prolonged Labor 226
Assessment of Prolonged Labor 228
Management of Prolonged Labor 228
Prolonged Labor in the Second Stage 228
Dangers of Prolonged Labor 231
Prevention 231

27. Abnormal Uterine Action **232**
Dakshayini BR
Characteristics of Normal Uterine Activity during Labor 232
Factors Responsible for Abnormal Uterine Activity 233
Quantification of Uterine Activity during Labor 233
Types of Abnormal Uterine Action 234

28. Operative Obstetrics **239**
Pankaj Desai
Episiotomy 239
Forceps Delivery 241

Vacuum Extraction 246
Cesarean Section 249
Hysterotomy 253
Internal Podalic Version 254
Manual Removal of Placenta 254
Obstetric Hysterectomy 255
Destructive Operations 255
Dilatation and Evacuation 256
Cervical Encirclage 256

29. Abnormal Fetal Presentation **258**
Shuba Giri Rao
Occipitoposterior Position 258
Presentation 262
Face Presentation 262
Brow Presentation 265

30. Transverse Lie, Breech and Compound Presentations **267**
Shuba Giri Rao
Compound Presentation 267
Transverse Lie and Shoulder Presentation 268
Breech Presentation 270

31. Injuries to the Birth Canal **278**
Suthanthira Devi S
Injuries to the Soft Parts 278
Injury to the Bony Parts 282

SECTION 6 Postpartum Care

32. Postpartum Complication **285**
Suthanthira Devi S
Postpartum Hemorrhage 285
Classification of Postpartum Hemorrhage 285
Retained Placenta 288
Adherent Placenta 288
Sequelae of Adherent or Retained Placenta 289
Acute Puerperal Inversion of Uterus 289
Chronic Puerperal Inversion 291
Amniotic Fluid Embolism 291

SECTION 7 Special Topics

33. Contraception **295**
Roopa Prakash
Birth Control/Family Planning/Fertility Control 295
Facts about Population 296
Classification of Contraceptives 297
Female Methods 297
Male Methods 317

34. High Dependency Unit **320**
Gayatri Kamath
Amniotic Fluid Embolism 320
Anemia in Pregnancy 320
HELLP Syndrome 321
Placenta Previa 321
Placental Abruption 322
VBAC and TOLAC 322
In Utero Transfer 322
Cardiac Disorders in Pregnancy 323

35. Right Hyperphoria Negative and Problems **324**
Duru Shah, Safala Shroff
Incidence 324
Historical Review 324
Rh Blood Group System 325
Laboratory Techniques in Evaluating a Rhesus Alloimmunized Pregnancy 331
Isoimmunized Neonate 335
Clinician's Approach to Rhesus Isoimmunization 336
Management of the Erythroblastic Baby after Birth 338
Rhesus Isoimmunization—Looking to the Future Challenges 339

36. Ultrasound in Obstetrics and Gynecology: The Sixth Sense **341**
Hema Divakar, Chitra Ganesh
Types and Timing of Scans 341
Sonoembryology 341
First Trimester Ultrasound Findings 341
Ultrasonographic Findings and Clinical Applications 345

37. Neonatal Resuscitation **353**
Narayanappa D, Sujatha MS
Necessary Equipments 353
Preparation of Equipments 354
Initial Steps 356
Sequence of Intervention 358
Circulation 362
Medications 362
Postresuscitation Care 363
Neonatal Advanced Life Support Algorithm 363
Evolving Practices 363

38. Human Immunodeficiency Virus Infection in Pregnancy **366**
Jena BK, Dhananjaya BS
AIDS/HIV in Pregnancy 366

39. Acute Surgical Emergencies in Pregnancy **372**
Ravishankar Bhat
Acute Surgical Emergency 372
Role of Laparoscopy 373
Appendicitis 373
Cholecystitis 374
Bowel Obstruction 374

40. Oxytocics in Obstetrics **377**
Parimaladevi, Gowri S
Oxytocin 377
Ergot Derivatives 379
Prostaglandins 380

41. Puerperium: Normal and Abnormal **382**
Revathy Janakiram
Changes in the Reproductive Tract and Other Systems 382
Lactation 383
Care of the Mother during Puerperium 384
Complications of Puerperium 385

42. Yoga Practices during Pregnancy 388

John Ebnezar

Concept of Yoga 388

Illness (Vyadhi) According to Yoga 391

Integrated Approach of Yoga Therapy 391

Introduction to Yoga Practices 394

Breathing Exercises 398

Loosening Practices (Sithilikarana Vyayama) 402

Yogasanas 403

Pranayama 413

Meditation 417

Closing Prayer 420

During Delivery 420

Yoga After Childbirth 420

Different Approaches of IAYT in all the Three Trimesters of Pregnancy 420

Index 425
