Contents

1. New Sequences for Spinal Magnetic Resonance Imaging: Basic Concepts **1**
Gustavo Tedesqui, J Keith Smith, Mauricio Castillo
- Basis of Magnetic Resonance Image Formation *1*
- Artifacts *5*
- Image Pulse Sequences *6*
- Special Techniques *12*

2. Application of Magnetic Resonance Flow Imaging in Craniospinal Disorders **16**
Lea Alhilali, Saeed Fakhran, Àlex Rovira
- The Circulation of Cerebrospinal Fluid: Bulk and Oscillatory Flow *16*
- Normal Craniospinal Cerebrospinal Fluid Flow Pattern *17*
- Application of Magnetic Resonance Flow Imaging in Craniospinal Disorders *20*

3. Magnetic Resonance Neurography **29**
Christopher Potter, Rebecca Scroop, Kenneth R Maravilla, Jeffrey Jarvik, Michel Kliot
- Anatomic Considerations *29*
- Pathology *30*
- Technique *30*
- Normal Magnetic Resonance Anatomy *30*
- Clinical Applications in the Upper Extremity *31*
- Clinical Applications in the Lower Extremity *37*

4. Imaging of Acute Spinal Trauma **44**
Daniel Varon, J Keith Smith, Mauricio Castillo
- Bones *44*
- Ligaments *45*
- Disc *45*
- Spinal Cord *46*
- Specific Types of Spinal Injury *48*

5. Magnetic Resonance Imaging Differentiation of Benign Versus Malignant Vertebral Collapse **57**
Ana Lorena Abello, William E Palmer, Rajeev Suri
- Imaging Techniques *58*
- Imaging Features in Vertebral Collapse *58*
- Fracture Line *59*
- Intravertebral Fluid Collection *59*

- Intravertebral Vacuum Cleft *60*
- Extraosseous Soft Tissue Mass *62*
- Pedicle Abnormality *63*
- Vertebral Morphology *63*
- Patterns of Vertebral Signal Intensity *65*
- Contrast Enhancement *66*
- Imaging Characteristics of Adjacent Vertebrae *67*
- New Imaging Techniques *68*

6. Magnetic Resonance Imaging of Degenerative Spine Disease: Spinal Magnetic Resonance Imaging Techniques and Imaging of the Posterior Spinal Elements **72**

Scott E Forseen, Ramon E Figueroa

- Routine Spine Magnetic Resonance Imaging *72*
- Emerging and Adjunctive Spine Magnetic Resonance Sequences *73*
- Imaging of the Posterior Spinal Structures *76*

7. Magnetic Resonance Imaging and Computed Tomography of Congenital Spinal Anomalies **84**

Prashant Shankar, Joel K Cure, Mauricio Castillo

- Embryology and Genetics of Spinal Development *84*
- Disorders of Primary Neurulation (Neural Tube Defects) *85*
- Disorders of Notochordal Development *95*
- Disorders of Segmentation and Notochordal Resorption *97*

8. Imaging of Spinal Tumors **101**

Ruby J Lien, A Orlando Ortiz, David Lefkowitz

- Intramedullary Compartment *103*
- Intradural Extramedullary Compartment *109*
- Extradural Compartment *112*

9. Image-Guided Interventions in the Spine and Spinal Cord **126**

Leopoldo Guimaraens, Andres Arbelaez, Teresa Sola-Martinez, Jacques Chiras, Jacques G Theron, Alfredo Casasco

- Simple Vascular Malformations *127*
- Complex Spinal Vascular Malformations *134*
- Other Interventions *135*

10. Percutaneous Vertebroplasty and Kyphoplasty **141**

Marcelo Bordalo-Rodrigues

- Complications *142*
- Patient Selection *142*
- Technique *143*

11. Other Nonvascular Spinal Interventions **149**
Wade H Wong, John D Barr
- Spinal Biopsy Techniques *149*
- Tools of the Trade *152*
- Common Diagnostic and Therapeutic Spine Interventions *152*

12. Postoperative Imaging **159**
Erik Wanderley, Mauricio Castillo
- Radiculopathy Versus Myelopathy *159*
- Cervical Spine Surgery *161*
- Complications of Cervical Spine Surgery *163*

Index *173*
